COLD-PROOF
You Bet They Are! Great Values, Too

$6.98 Wonderful Value! Our Very Best Moleskin Coat for Boys

"I could not have bought a similar Sheep Lined Coat here for twice the money," writes Mrs. F. W. Schnok of Independence, Iowa. Thousands of mothers and sons praise this excellent quality moleskin cloth and its high-grade, extra sized, genuine sheepskin lining. And rightly so, because the special features and general construction are exactly like those in our men's World Leader coat shown on Page 268.

Its unusual strain resisting qualities at all points that receive wear are thoroughly tested in our own Laboratory. The best wearing wool filled lining material available is used in the sleeves. Knit worsted wristlets insure warmth for the arms. Double arm shields prevent any ripping where the sleeve lining joins the body lining under the arms—cheaper coats always break at this important strain point first. Leather reinforcements at pocket corners give much needed strength. Large shawl collar of beaverized clipped sheepskin wards off colds in damp weather. Big and roomy—for buttoning closely around face and neck on extremely cold and stormy days.

Boys will wear it for chore work, for play, for school. When sonny is out in a storm, mother can feel certain of his safety for she will know that cold and wind can't penetrate this heavy material. After it's gone through a season's wear she'll wonder how we could ever offer so much clothing comfort at this low price.

The Latest Mackinaw Style $9.95

Here is the sheep lined, All Wool plaid Mackinaw that last year created such a sensation with the boys. A fancy red, olive and gray plaid, it strikes the immediate fancy of every boy. The shawl collar of beaverized, clipped sheepskin is exactly what every school boy dreams of in the coat of his choice. His face and neck will never suffer in even the most severe storms for the collar buttons up closely to meet his hat or cap. Two deep muff pockets, in which he can keep his hands warm. Also two lower pockets with flaps.

Sleeves are lined throughout with good quality suede cloth; comfort-giving knit wristlets at cuffs. There's no gripping or pulling under the arms—suede leather arm shields prevent it. No tearing at this important strain point for the arm shields hold together the sleeve and body lining. All boys favor the double breasted style and the all-around belt.

Fine Quality Genuine Horsehide $11.89

Our most attractive and warmest leather Coat for boys—genuine front quarter black horsehide that will outwear any other leather put into coats today. It's so far superior that you have to own one and wear it to fully appreciate its sturdiness under hard usage. Last year, all through the east, it was the most popular coat sold. You could see them everywhere. So many boys wanted it, the manufacturer could not supply the demand. From the standpoint of wear or value we do not believe a finer coat could be made. Made roomy and full length. The lining is select quality sheepskin. Inside bottom and side facings are of a good grade corduroy. Seldom do you see a finer or better made, clipped beaverized sheepskin collar than used on this garment. Button it around neck for storm wear. Sleeves are unlined. Cuffs finished with suede cloth lining.

Genuine Horsehide Leather
Sheep Lined for Warmth

$19.75

Last year a similar horsehide leather garment, lined with melton cloth, was remarkably popular. Now, for men who prefer greater warmth, we are offering a Coat with double the comfort. We have put in a lining of select quality sheepskin. It meets exactly a "he-man's" requirements—for long wear, warmth and appearance. Not one single point of construction has been overlooked to make it a remarkable garment for all round utility and genuine comfort. Collar is beaverized, clipped sheepskin with underside faced with thickset corduroy. Buttons snugly around neck, face and ears when icy winds begin to whip across the fields—you won't worry about the cold. Arms are well protected by knit wristlets and lining of black drill cloth.

Five-button front holds coat tightly closed—preventing cold air from coming through. Half belt in back gives it a style now very popular in dress overcoats. Two attractive muff pockets and two lower pockets with flaps. All seams are strongly sewed and strain points reinforced. The very first time you slip into this fine looking coat of genuine front quarter (the best) horsehide you'll admire the choice you've made. Length, 32 inches.

220,000 Men Wear It!

World Leader Sheep Lined Coat

$8.95 Proof Positive of Tremendous Value Proof Conclusive of World Leadership

All the tremendous buying power of Ward's great store is back of this Low Price! All the reliability for which this house is famous stands sponsor for the superior quality of this WORLD LEADER. Considering the price, it is unquestionably the very best Sheep Lined Coat on the world market today. Hundreds of thousands of men are wearing it; thousands have written us to praise it. It richly deserves its tremendous popularity, for it has helped, more than any other garment, to make Ward's the World's Headquarters for Sheep Lined Coats.

The World Leader

The Very Best Sheep Lined Coat You Can Buy Anywhere for $8.95

"Five years ago I determined to offer our customers a line of Sheep Lined Coats the best in the world to be sold for less than $15. And I selected this particular coat as the leader of the line. The manufacturer worked with me to produce this world-beating value; because for him it meant orders for hundreds of thousands of coats. As a result the World Leader is the 'Bell Wether' of the whole Sheep Lined Flock—with every exacting quality mark that every particular man should demand in a coat. We stand back of it with our guarantee of satisfaction—and recommend it as the best value ever offered anywhere, at any time."

L. J. STRETZ, Manager of Men's Clothing Department.

World Leader Points of Superiority

Every sheepskin that goes into the lining of the World Leader is carefully graded for longer fleece and perfect skins. Every lining is made from fresh, well-tanned pelts, and is cut and fitted by hand. The sheep lining is longer and wider than you will find in any coat sold for less than $12 anywhere! We will not clip the fleece short to save the wool—we will not skimp the size of the lining to save the skins—we refuse to do anything that will lower the sterling character of the WORLD LEADER. If you have been comparing sheep lined coats you'll recognize how much more sheepskin we use—how it comes closer to both edges.

Untold comfort and much satisfaction is crammed into the big, warm, beaverized Genuine Sheepskin Collar—bigger than collars of other coats selling at much higher prices. A collar six inches deep, woolly and wear-resisting, with strong tabs to keep it snug and warm around the throat.

Strongest Moleskin We Ever Tested

The moleskin in our World Leader is so far ahead of the weight and weave generally used in coats others sell at near this price, that no comparison is possible. Only rigidly tested, heavy 11-ounce moleskin is used. As near tear-proof as it is possible to make a fabric. A strip only an inch wide will support a weight of over a hundred pounds. Our customers tell us it stands the gaff better than anything they ever wore except leather. Large lower pockets reinforced with moleskin cloth. The two muff pockets are reinforced on each end with genuine leather. The extra strength wool-and-cotton sleeve lining, selected after exacting tests of hundreds of linings for durability, will wear for the life of the coat. All Wool, close-fitting wristlets keep out the wind. Double arm-shields prevent tearing of lining.

Big Full Cut for Easy On-and-Off

Added to superior quality of material—and we use plenty of it—we have built the World Leader Extra Big and Roomy. It makes the coat easy to work in. Big armholes give all the arm-swing a man could wish. The generous overlap of the double-breasted style gives protection from cold to chest. Double sewed—no-rip seams. Average length, 36 in. These extraordinary advantages establish the supremacy of the WORLD LEADER; these features have made it the choice of 220,000 men; this value makes it the coat for YOU.

Weather-Proof

Double thickness throughout. Extra heavy, tested 11-ounce moleskin "shell," and warm, genuine Sheepskin inside makes this big coat resist wind, cold, rain and snow. Just the coat to wear in severe weather.

Wind-Proof Wristlets

These extra heavy All Wool Wristlets keep the wind out of the sleeves. They are tightly knitted to stick close to the wrist and planned to keep the heat in and cold out. Wristlets of this kind are seldom found on other coats priced so low.

Double Armshields

Besides adding longer life, these double arm shields prevent tearing of lining in both sleeves and body. Most coats selling at much higher prices, have only single arm shields. Be sure your coat has the double shields.

Our Finest Quality
Sheepskin Lined to Edge

"Make us a Sheep Lined Coat that's out of the ordinary for warmth and service!" Such were the demands of many outdoor men. Here's the coat—forest green (dark olive) moleskin cloth that resists the roughest kind of wear. Sheepskin lining that extends to the very edge at one side, giving absolute protection to entire chest. Laugh at the sharpest winds, for the roomy collar of beaverized, clipped sheepskin buttons closely around neck. Comfort not overlooked in sleeves either—they're lined with wool-filled material and strengthened under arms with double shields. Pockets reinforced with moleskin cloth. All-around belt plus double breasted feature holds garment snugly to body. All materials used were given rigid tests in our own laboratory. Every detail of construction was supervised by our clothing experts. Order it—and have the coat you've always wanted. Length, 36 inches.

Genuine Horsehide
Remarkable Value In 27 or 30-Inch Lengths

$9.85

Ward's has arranged to offer you a positively remarkable value in this practical garment. To give you a genuine **front quarter** horsehide leather Coat of dependable quality at such a low price is certainly a wonderful achievement.

You'll say it's certainly worth a lot more than our low price. But we had to give the manufacturer a tremendous order to secure this big saving for you. We used the best wearing clothing leather it was possible to obtain. We lined the coat with good quality part wool Melton cloth, 25 per cent wool and the balance cotton for extra strength.

The collar is also horsehide leather and faced on the back with a fine thickset corduroy. Two-button adjustable cuffs lined with Melton cloth, sleeves unlined. Ventilation eyelets under arms. Two lower pockets with special turned leather edge double stitched for extra strength. Adjustable tab on each side of back. Made in lengths 27 inches and 30 inches: choose whichever best fits your requirements. Order a pair of HIKE-N-WORK horsehide breeches to complete your outfit.

SIZES: Chest 36, 38, 40, 42, 44, 46, 48 inches. State chest measure wanted. Read "How to Measure" on Page 238. Shipping weight, 5 pounds 2 ounces.

Mr. L. G. Stretz, Manager Clothing Department:
"The U. S. Bureau of Standards, after tests made of samples of horsehides sent them, advise that: 'These tests show side leather (horse fronts) to be approximately five times as strong and resistant to tearing as the butt leather.' "
E. H. HARVEY, Ward's Laboratory Chief.

Thickset Corduroy Leather Lined

Our Most Popular Horsehide Coat Leather Lapels

$14.95

Our very finest!—and most popular Leather Coat. And no wonder. A better coat of this type would be difficult to find. The leather is genuine front quarter horsehide—there's nothing better for wear. The body lining is 22-ounce wool Melton cloth, 80 per cent wool, the most successful material known for lining work coats of this sort. We lined the sleeves with black twill cloth to prevent the leather from discoloring your shirt sleeves or underwear.

Collar and also the lapel are genuine horsehide leather. Knit wristlets and adjustable cuffs fit snugly. It's the right work length, 30 inches. Ventilation eyelets under each arm. Two muff pockets; two deep lower pockets with protecting flaps to button down, and an all-around belt to keep the coat snug to the body. You will be enormously pleased with the great satisfaction you get from this fine garment.

Meet "Big Timber" The Finest of All

A champion! Big Timber towers above them all. From every standpoint, whether long wear, good looks or comfort, it is all you could ask. It tops the list in sales. It brings in more letters of praise from pleased wearers than any other leather Coat we ever sold.

It's made better, bigger and roomier. Its tough surfaced genuine front quarter horseide stands the most severe punishment you could possibly give a garment. You want warmth without hindrance in walking or working—so we've made it 32 inches long. It'll cover any suit coat. You know what added warmth good lining gives—that's why we've selected an unusually fine Melton cloth—85 per cent wool. In a pleasing brown heather.

Black jean cloth sleeve lining prevents leather from staining garments worn underneath. The mammoth collar of beaverized clipped sheepskin has leather on under side. Your hands need fear no cold, for besides adjustable cuffs and knit wristlets, there are two deep muff pockets. Note the all-around belt for added dressiness. Lower pockets fitted with button-down flaps. This coat and a pair of Hike-N-Work breeches will make you a fine outfit.

Famous *Stillson* Cloth
Guaranteed to Wear 6 Months

Made from our sturdy Stillson cloth, the famous All Wool worsted that has made our Stillson suits a world standard for style, long wear and value. Over 200,000 men have bought suits of this marvelous material. We tailored the trousers in our own factory. Our own skilled cutters fashioned them carefully to correct, conservative style. They'll fit you perfectly. An honest estimate of their true value would be every cent of $7 and they will outwear any trousers within $2 of our price.

Without exception the greatest Trousers value ever offered. It stands alone—a world leader. We are giving you our guarantee that for dress wear these Trousers will furnish you six full months of service. And we will send you a new pair absolutely free if they do not live up to the promise.

A Challenge Offer
6 Months Guaranteed Wear

After a year's search we've found two fabrics of attractive patterns, sturdy enough to stand the gaff for half a year—which, like our Famous Stillson cloth, could be guaranteed unconditionally for six months wear!

The Rayon striped Cotton Worsted is a French-back cloth, extremely good-looking! The 20 per cent wool worsted has a more satiny French back, and is even finer quality! Both fabrics are tailored into smart trousers, and covered by the same guarantee If a pair of these trousers fail to wear you six months, we'll send you a new pair FREE.

To our knowledge there is no such a value-giving offer anywhere! Rich, but inconspicuous patterns in brown or gray stripes.

They Are Shower-Proofed Priced Below All Others

They'll shed water like a duck's back! You men who work outdoors in all sorts of weather will much appreciate this shower-proof feature. They're our most popular Corduroy Trousers—men who have bought them once, buy them again year after year. The rich dark brown thick-set corduroy resists wear more successfully than many other work garments selling elsewhere at much higher prices. Strongly reinforced seat and crotch seams taped to prevent ripping; bar-tacked pockets and bottom of fly; left hip pocket has a tab and button which prevents valuables slipping out. Belt loops and sewed on suspender buttons permit the wearing of a belt, suspenders or both. For all round satisfaction here is a value that should not be missed.

Strong Cotton Worsted

Strength—Quality—Low Price—are the three distinctive features of these long wearing Trousers. The cotton worsted material was particularly chosen because of its adaptability to all kinds of hard use. You'll appreciate its warm fleeced underside in cold weather. Unlike most work pants they have an inside waistband of black sateen. Strongly reinforced at all strain points—the six belt loops and suspender buttons are sewed on to stay. Experience will tell you that work pants constructed like these readily sell for much more elsewhere.

Wonder Values in Work Pants

Endurance Built Throughout

Wear One-Third Longer
Much Lower Priced

"My work is very rough on clothing. I am a diamond sawyer, in a stone mill," writes Harry C. Meredith of Bedford, Ind. "It takes the toughest materials to give satisfaction, and I find that your Work Trousers wear one-third longer and cost 50 per cent of what I would pay here." These are the Trousers that prompted this letter of praise—of moleskin, a wear-resisting material that needs no introduction to the hard working man. Will give you more satisfaction than garments selling at higher prices.

Black and gray striped, excellent for work and good looking enough for ordinary dress purposes. We especially recommend the purchase of the 9½-ounce material—it'll wear longer and give more satisfaction than the lighter weight 8-ounce material. The bottom of fly, belt loops and side pockets of pants are bar-tacked for extra strength. The seat and crotch seams are double stitched.

Dependable Service Guaranteed
Priced Below All Others

Super Value—that's the outstanding feature of these all-purpose Work Trousers. Wear them day after day, month after month—they'll give the kind of service and wearing comfort found only in highest priced work garments. The material is a good grade of firmly woven cotton worsted with a fleeced underside—a feature to be appreciated in winter weather. They're cut full and roomy, too—for greater working comfort. The practical, neat appearing patterns are slow to show signs of soil. Every possible strain point has been strongly reinforced—assuring greatest strain resistance. The five pockets have the desired strength and roominess. Suspender buttons are sewed on to stay. Heeding the popular demand, we've made them in extra sizes, too—giving all the opportunity to benefit by this great value.

NOW! Thousands of Men Know It

Ward Wear (TRADE MARK) —The New Tougher Sui

—Water-Proofed to Keep You Dry—

Breaks All Records for Wear Yet Is Neat Enough for Dress

$8.95

Throughout America there is a tremendous demand for a cloth tougher than Moleskin—neater in appearance than Moleskin—a water-proofed cloth—one that can be tailored over a real dress pattern. Men whose daily activities are varied: perhaps from a trip to town in the morning to work in the field or shop or garage in the afternoon—who don't have time to stop and change clothes—these men demand an All Purpose Suit. "Wardwear is our answer.

Neat Enough for Dress Tougher Than All the Rest

"It must stand any kind of wear and it must continue to look nice," were the instructions we gave our buyers, when they started their nation-wide search for a new cloth that was tough enough to be called Ward wear. Then they discovered a phenomenal fabric—one that revolutionizes men's ideas of what an Outdoor, Wet-Weather-Proof All Purpose Suit should be.

Never did a suit stand such punishment as we gave the first Wardwear we tested. We found its tight weave practically snag-proof. We found it similar to Moleskin but much tougher—we found that it tailored well, and stayed well tailored. Finally, we took it back to our laboratory and hung a 1000-pound weight on the Wardwear pants. That—was—enough—for—us! We KNOW Wardwear is the toughest, and at the same time the best looking work suit ever built!

Record Breaking Popularity from the Start

When we introduced it less than a year ago we told you it would be a regular Bull Dog for Wear. Now men everywhere say we didn't praise it as highly as we should. But we do know now that it "fills the bill"—now we are justified in naming it "Wardwear."

There was an overwhelming rush of orders from the first—one of the greatest for a single suit we ever had. We have doubled and tripled our original contracts for cloth; our tailoring shops have been put on a bigger and faster production basis. Surely thousands of men must have been waiting for just such a combination of tough texture and lasting neatness.

Suits Made of Similar Cloth Are Sold All Over the Country at Around $12 and $13

Our price is cut so low that we would have lost a lot of money if we had not sold the large quantity we estimated. But orders have literally poured in, and the demand continues so promising that we are extending—until further notice—our introductory price of only $8.95 a suit.

Every detail planned for comfort—neatness—service. Each size is cut full and roomy, especially in the legs and arms. Seams are double stitched through laps. Buttons sewed on to stay! The trousers come in the regular width with cuff bottoms. Men, think of it! A suit as nearly everlasting as can be made—wet-weather-proof—an attractive pattern, carefully tailored—in fact, Wardwear is America's Super Suit for all purpose wear, and priced at only $8.95.

Supply Your Needs for Months Ahead With These Remarkably Built Overalls

The best low priced bargain in Overalls we ever offered and the best bargain, considering materials and workmanship, you ever bought at this price. We feel it is an outstanding achievement to have succeeded, through huge purchases of cloth and close trading with the factory, in producing a garment like this for less than a dollar. We believe you would pay a retail price of $1.00 to $1.25 for it anywhere and be mighty well satisfied. Yet our low price this season is only 88¢ a garment.

Men everywhere are taking advantage of this opportunity to supply their need for overalls months ahead. Judging from our sales of the last few months, this will become the most popular low priced work garment in the entire United States.

Extra Features

We've put in lots of big strong pockets. In the high back model the suspenders are continuous—not sewed on. That's a feature you can expect to find only in overalls that sell at a higher price. Low back style has detachable suspenders with strong elastic inserts. You can depend on their giving you greater satisfaction than you are accustomed to get for so small an investment.

The material is the famous **2:20 white back blue denim**—thousands of men know its wearing qualities. Every seam is triple stitched. Every pocket is of generous size and bar-tacked for extra strength. Six in the overalls, including one for watch and pencil and also one for pliers. In the Jacket there are four, including combination watch and pencil pocket. Order a suit and make a thorough inspection in your own home. Compare it feature for feature with garments sold elsewhere for about the same price. Then you'll realize your bargain.

Our Very Finest Is America's Best Value!

The Supreme Masterpiece of Overalls Construction

$1.44 A Garment

At the top of our super-quality Overalls stands this giant of values—chief of them all! We planned many seasons ago to bring out such a garment—one that could be proclaimed before the world a masterpiece of construction in overalls and the biggest value in this country for the workingman's money. We built and rebuilt dozens of special models.

Our buyers visited construction camps, railroad shops, farms and factories, consulting every type of workman. We wanted you men who wear the overalls to tell us what you want. Then, sure that our plans were right, we put them in the hands of one of the biggest overalls manufacturers in America. He sent us a model—the strongest, roomiest overalls we had ever seen. There was no more doubt. Now, we are satisfied—positive that a new wonder garment was ready to be introduced—overalls as big and roomy and with as much lasting wear as a man could possibly ask for. An order for thousands of dozens went to the manufacturer—and with the order, the most rigid overalls specifications, we believe, ever written. And here they are.

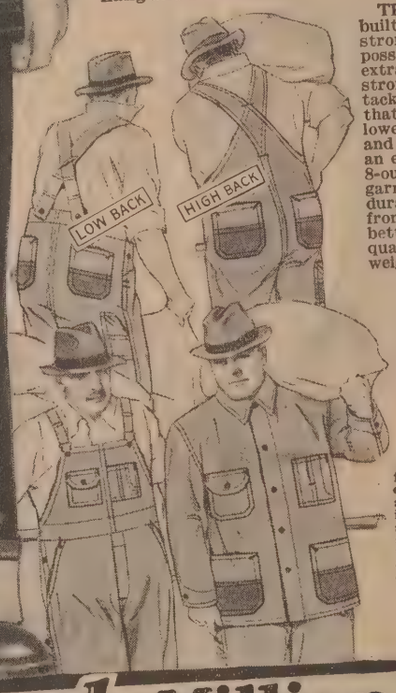
Double Strength and Double Wear Throughout

THE MATERIAL. Extra heavy, extra strong 8-ounce white back blue denim—the most durable cloth ever put in overalls. Every yard thoroughly tested and inspected. Every thread guaranteed to give longer wear.

THE LEGS. Two seams in each leg for better hang and better fit.

THE SEAMS. They're triple stitched and guaranteed never to rip. We'll send you a new pair of overalls free if they do.

THE BUTTONHOLES. Strong and firmly reinforced—they will not pull out.



THE POCKETS. We believe we have built for this super garment the strongest, longest wearing pockets possible to construct. Every one extra wide, extra deep and extra strong—double stitched and bar-tacked at corners. In all the pockets that usually wear out first—the two lower pockets in the jacket, the plier and two hip pockets—we have placed an extra thickness of the same heavy 8-ounce white back denim as used in the garment. A feature which insures double durability and double service. Inside front overalls pockets, which in most better grade overalls are only of fair quality drill material, are of heavy weight white back denim.

In the overalls we give you seven pockets—all a man could possibly use. Two on the bib—one a combination for watch and pencil, the other with protecting button down flap, always a dry pocket on a rainy day. Two front pockets, the right with inside watch or match section. Strong hammer strap.

Five pockets in the jacket, one for watch and pencil on the upper left side and on the opposite side another button down flap pocket. There is also a big, handy inside pocket.

THE SUSPENDERS. The high back suspenders are a continuation of the garment—not pieced or sewed on. Both high back and low back styles are double thickness 8-ounce denim, all one piece of material cut double width, folded over and stoutly stitched at both edges. This construction stops all twisting and curling. Low back model has detachable double suspenders with strong elastic insert.

EVEN SIZES: Chest 36 to 46 inches. Waist 30 to 44 inches. Inseam 30 to 36 inches. State chest, waist, and inseam measure. Read "How to Measure" on Page 238. Shipping weight, each garment 2 pounds 6 ounces.

Satisfactory in Every Respect

"Concerning the Overalls purchased from you. My husband is a stationary engineer so gives them hard wear and has found them very satisfactory in every respect. They launder well and are plenty roomy. The pockets are extra strong and deep—also conveniently placed. He priced them at different stores here and could not equal them at $2.00."

Now the Choice of 1/2 Million Men! —the Famous "Pioneer"

Bigger and Better Than Ever

$1.29 A Garment Overalls or Jacket

Cut over a larger pattern—size for size! Larger seats—roomier armholes—more sleeve room! Double strength where it's needed—but still keeping all the old favorite features that have made PIONEER a Byword of Service with nearly half a million wearers.

"Equal to Any You Can Buy Here for $1 More"
Writes W. G. Hendrickson of Kimball, Minnesota

PIONEER OVERALLS, high back or low back, are built from top to bottom to stand punishment—and priced at $1.29, they offer one of the greatest values in our entire money-saving catalogue. They are worn by half a million men. From the first time we offered them, they have blazed the trail to better values! They are now better than ever, but the price is no higher.

The wide-spread Popularity of PIONEER Overalls is the direct result of building better garments, cutting them fuller, putting better materials and better workmanship into them—and pricing them lower than the other fellow does. Our files are full of letters of appreciation—in fact PIONEER Wearers have sold more overalls for us than has our catalogue. This nation-wide demand, enables us to arrange for tremendous purchases of 2:20 White Back Denim—the super wear material of which PIONEERS are made. It enables us to sign big contracts with overalls manufacturers—keep down the cost of production, cut the selling price and increase your savings. Every man who buys PIONEERS always gets amazing value.

Values That Won Us Leadership

One of Our Finest Overalls

Extra Heavy 8-Ounce White Back Denim

$1.19

From coast to coast this garment of time-proved quality and time-proved value is an old established friend of thousands. When men whose experience with Overalls covers many years and the wearing out of dozens of pairs—when these men say they're the best they ever wore for the price—then you have an endorsement to be depended upon.

"Best overalls I ever wore"—"Worth double your price"—"Couldn't duplicate the value anywhere"—"Has stood up under the hardest wear." Such expressions as these show what our customers think of them.

Only the highest quality extra heavy weight 8-ounce indigo blue, white back denim is used—the most durable and most popular overall material known. All seams are triple stitched and guaranteed against ripping—all pockets double sewed and bar-tacked. Two leg seams in the overalls for comfortable hang and fit. Self faced waist band for added wear. Every part of the garment that receives extra wear is strengthened. Details which might be considered small to the average man were given the most careful attention.

Jacket is three-seam style and has self faced cuffs. Four big pockets, one a combination for watch and pencil. In the overalls there are seven generous pockets—two front, two hip, one match or watch pocket in right front pocket, plier or rule pocket, and a combination pocket for watch and pencil on the bib. On the left side there's a hammer loop. The low back style has detachable suspenders with elastic inserts. The high back overalls are continuous—not sewed on. They are also made double thickness just the same as the low back suspenders—they won't twist.

If you can duplicate such fine quality, such fine workmanship at the price we ask—return the garments at our expense. As fair an offer as anyone could ask for.

EVEN SIZES: Chest 36, 38, 40, 42, 44, 46 inches. Waist 30, 32, 34, 36, 38, 40, 42, 44 inches. Inseam 30, 32, 34, 36 inches. State chest, waist and inseam measure. Read "How to Measure" on Page 238. Ship. wt., 2 pounds 2 ounces.

$1.55 Double Seat Double Knees

Overalls for men whose work is unusually rough and hard on clothes. Double patch extending below each knee and double seat makes them give double service. Strong 2:20 white back blue denim, famous for its long wear. Extra service construction in three of the pockets, too—the lower half of the two front and the plier pocket have double thickness of white back denim. There are no other pockets—a combination watch and pencil pocket on bib and two hip pockets. Also has hammer loop on right leg. Continuous high back style cut in one piece with pattern of overalls. All seams are stitched to stand heaviest strain. Double gussets, all pockets and bottom of fly securely bar-tacked.

$1.25 Riveted Overalls For Men and Youths

Six months ago we introduced these now famous riveted Overalls. Men everywhere quickly appreciated the ruggedness of these garments, built of strong, wear-resisting 8-ounce white back blue denim. They were pleased with the extra strength at bottom of fly, pockets and back strap, all of which are reinforced with copper rivets instead of the usual thread bar tacks. All seams are triple stitched with orange colored thread. Yoke back; strap and buckle. Two front and two hip pockets, also pocket in right front pocket, for watch or matches.

A Good Raincoat Saves Clothes

Men's Rubberized Topcoat for All-Purpose Wear

$8.95

You have raincoat protection plus topcoat style in this rain-proof All-Weather Coat. Will keep you warm on chilly days and dry in wet weather. A dressy combination garment that's always practical and at our moderate price it's indeed a big value. Made for you by the country's best manufacturer of rain clothing. Every detail of its construction lives up to a high standard of expert workmanship and fine quality materials. Sturdily made of fancy woven nearly half wool cassimere in a choice of two attractive overplaids—a medium tan and a medium blue-gray. Has rubber lining that will always remain soft and pliable as only the best rubber will. A good looking plaid is vulcanized right into the rubber lining—it can't wear off. All seams are sewed, cemented and finally strapped with silk to match lining, making the garment

Absolutely Rain-Proof

Buttons are reinforced with small stay buttons. Bottom of garment and collar edges are double stitched. Three ventilation eyelets under each arm. The vent in back closes with button. Turn up the collar in windy weather—it's convertible. Single breasted style. When you see it you'll register appreciation as great as you've ever known. The more critical examination you give it the more you will admire its sturdiness and all around practicability.

Our Famous Leathertex

For Men—Youths—Boys

Looks like leather, feels like leather, but is lighter and more comfortable in weight—and costs only one-fourth as much. That's Leathertex, the popular, special processed rubber coated material used in these shower-proof Coats. The embossed surface has the effect of genuine leather. It is guaranteed not to harden in any temperature. Nor will it crack, scuff or peel. Gives more wear than ordinary raincoat materials. To clean spots on it, just wash with a wet cloth. The inside of Leathertex cloth is a napped cotton fabric with a suede cloth appearance.

Also Worn as Topcoat

It's dressy and also protects you from sudden showers. Double breasted with a half belt in back. Convertible collar. Two large outside patch pockets with flaps; vent in back. Buttons are reinforced with small stay buttons. Facings and all seams piped. Men's, youths' and boys' sizes so all can take advantage of the comfort and all round usefulness of these coats.

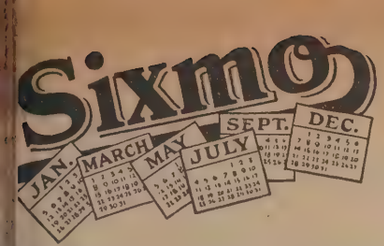
Sixmo Guaranteed Work Shirt

3 Shirts Absolutely Guaranteed to Wear Six Full Months



MY THIRTY YEARS of merchandising experience I have never seen he equal of our ***Sixmo*** Shirt. Nearly a quarter of a million were sold ing the past year, and not one has been returned because of failure ive up to the guarantee.

or positive proof of its bulldog resistance to wear, we subjected it to boratory test. Suspended from a hook, it held the weight of two men absolutely no injury to either the finely woven chambray fabric or seams; the shoulders, which receive most wear on any shirt, positively did give way. I don't believe any other shirt on the market will stand a nger test.

heartily recommend our ***Sixmo*** shirt, if you are looking for a able, long wearing garment that will stand up under the grind of gh, hard usage. ***Sixmo*** shirts are unqualifiedly guaranteed to wear for months—no other shirt that I know carries such a broad guarantee.

Melophonic Semi-Console

A Cabinet Creation De Luxe

And now, that richer, purer tone—the Melophonic's gift to music—comes throbbing from the heart of the very latest semi-console model. Designed to contain the large Melophonic tone-chamber, this cabinet was created by a renowned master craftsman, and takes rank in beauty with some of the world's finer period furniture. Top, front, and side panels are of genuine Mahogany or Walnut veneers, in the new two-tone highlight effect, decorated by burl overlays of the same woods on doors and upper frame. Hinged doors close the conveniently placed record compartments at either side. The huge tone-chamber also makes an ideal radio loud speaker, unobstructed and free to produce those famous Melophonic tones. Try it in your own home for thirty days. Powerful, double-spring motor—latest type sensitized reproducer, new "S" type, tapering tone-arm of heavily nickel-plated brass. *Needles and five double-face, 10-inch records included.* Select records from Pages 304 and 305. The Maestro of Melophonics

Matchless in Tone—Superb in Design
Now Better Than Ever—Fully a $300 Value

The Melophonic cabinet, exquisitely overlaid with artistically designed burl panels, is made of beautifully grained matched genuine Walnut veneer, and finished in the new two-tone high light effect. It is specially designed and improved to leave unobstructed the new enlarged Tone Chamber, which gives the most life-like reproduction of vocal and instrumental music ever known to man! The instantaneous response of every mechanical part develops a tonal beauty unmarred by surface noises, unblurred by unrecorded sounds, and absolutely unrivaled for clarity!

This Matchless Melophonic, ever true to the original artist's conception, will sweep into your ears the music of the old masters, or thrill you with the syncopations of today. The most delicate shadings of the violin, piano selections with notes maintained for the full length of their original duration—the full harmony and force of the orchestra—the resounding strains of stirring martial music—limpid lullabies and songs of triumph—all come trooping from the Melophonic, equally inspirational in purity and beauty!

Correct in Design—Scientifically and Mechanically

The highly perfected reproducer gives reproduction to every shade of tone. The extremely long sound-chamber becomes an ideal loud speaker when used with a radio unit. The silent-running, triple-spring, motor gives playing power of exceptional duration. Turntable has a plush top, gold-plated. Latest "S" type tone-arm, scientifically tapered, is made of drawn brass, heavily gold-plated. Ample record-space at either side is concealed by panel doors. *Five, double-face, 10-inch records and an assortment of needles included.* Select records from Pages 304 and 305. Try it for thirty days. Height, 45½ inches; width, 30½ inches; depth, 23 inches. Shipping weight, 185 pounds.

More Than Pleased
"The reproduction and volume is as good as I have heard in machines costing more than double what I gave for the Melophonic. We are more than pleased with it. The cabinet is a real piece of work and fine enough for any home. It came to us in perfect condition."
P. L. Thomas, Beaver, Okla.

It Certainly is Beautiful
"We are so well pleased with our Melophonic that we are not satisfied until we tell you about it. It certainly is beautiful and has a wonderful tone—so plain that you can hear every word. It is far better in quality than the high priced machines you can buy in stores around here."
Mrs. Wm. Griebenow, Stewartville, Minn.

Surpasses Them All
"We are well pleased with the Melophonic Phonograph that we ordered from you. I don't think we could have beaten it in tone and reproduction quality anywhere locally at your low price. I would not take double what I paid for it, if I could not get another one like it."
John S. Mordica, Browns Station, Mo.

Wonderful Tone
"The new Melophonic arrived O. K. and I wish to say that in tone and volume it is wonderful. It is hard to believe that such a machine with such wonderful reproducing qualities could be sold at the price that Ward's catalogue offers. The first record I played I knew I was more than satisfied. My friends all say it is a wonderful machine. They all like it." Mrs. F. Gordon, 8600 Greeley St. Detroit, Mich.

An Appreciation from Our Director of Art

To Mr. J. L. Mitchell,
Manager Ward's Music Department.

After observing your display of the new Melophonic cabinets, I am profoundly impressed with the extreme artistry shown by your designer. The fidelity with which he has followed the master creators of some of history's most famous furniture designs is certainly immediately apparent to either the student or critic.

Tolbert C. Miller, Director of Art,
Montgomery Ward & Co.

The Queen Anne

usic critics are amazed at the rich, tonal beauty of the New Melophonic. They say they've never heard thing that so clearly and faithfully reproduces every note just as it was rendered by the original nt—without the loss of a single shade of tone! This instrument, with all its new improvements, is nounced scientifically correct. It astonishes the world with the fidelity of its playing. No other phono- h that we know pours out music so freely and naturally. Tones that heretofore were lost or muffled he old style phonograph, are now heard with a clarity never before thought possible. In orchestral tions, you can distinguish the different instruments almost as easily as though you were listening to actual musical ensemble. In reproducing all selections, vocal or instrumental, the Melophonic is as ly human as any phonograph has ever been made.

New Melophonic Full Opening Console

Finest of Console Designs

Iest of all the Melophonic Console ns, the New Melophonic is an artist's n come true, in the most beautiful fur- e woods of the forest. It reproduces with all the characteristic tonal es of the actual performance. When it ng played, the two doors open in the r and fold again at either end of the ument, leaving the big tone chamber tely unobstructed. See the inset above. onore bending over for records—the e is ample in size and is placed at the top side the sound chamber. Genuine gany or walnut veneers in the two-tone, igh-light effect, enhanced by burl eays of the same woods, are used for front and side panels. Specially Designed for Beauty of Appearance and Tone

Of all the Melophonic models, none is more popular than the elegant Highboy. The quiet richness of its wood, and stately dignity of design, endear it to those who appreciate fine furniture, just as its wonderful tone makes it a favorite with lovers of music. A cabinet of such exquisite beauty and craftsmanship can be found only in the better music shops—and then at a price about double what we ask.

Inside, away from all the beauty of form and shaded finish, there is housed that great Melophonic tone chamber (which makes a fine radio loud speaker), so long and large that the music it produces is infinitely pure and sweet in tonal quality. Its piano reproductions (the final test of a phonograph), are equal to those of instruments costing twice, or three times as much. No surface noises to mar the music. With the aid of the newly discovered sensitized reproducer and the scientifically tapered tone arm, the notes of all kinds of selections, violin, orchestral, piano, or vocal, come forth unmuffled and unblurred, as pure and forceful as when rendered by the original artists. Equipped with a strong, 2-spring, quiet motor, has extra long playing power. Has a 10-inch, felt covered turntable. There is an ample space provided for records inside the doors on either side. *Needles and five doubled-faced records FREE! Select your records from Pages 304 and 305.*

Europe's Master Craftsmen

Solo Violin *Made by* Eugene Meinel
A Faithful Reproduction of Stradivarius
the Master Violin Maker of All Time

$45.00

In my visits to Markneukirchen, I contracted to buy direct from Eugene Meinel, thus avoiding the usual middleman's profits. That is why you can buy this wonderful Violin at a fraction of its actual value.
J. L. MITCHELL,
Manager Music Department.

It's a Meinel! More need not be said. Beauty of design, brilliancy and power of tone, and faultless craftsmanship—that is what you attain from this Solo Violin, made by Eugene Meinel. Built from extra seasoned wood, improved, and mellow with age, until it becomes almost priceless. The true musician will be impressed by these rare qualities. It is patterned after the celebrated Antonius Stradivarius.

Top is pefectly aged, mountain spruce, back and sides of beautiful flamed maple, the shell has extra depth and is full blocked and lined inside.

Finest ebony fingerboard, tailpiece and pegs. Oil varnished a beautiful reddish brown color or golden red amber exquisitely shaded. Best grade of strings—G string, pure silver; D string, aluminum. State color wanted. Shipping weight, 9 pounds. Color card showing actual color and shading sent on request.

551 G 700—Violin only.. **$45.00**

I Searched the Old World Workshops for These Finer Violins

Every year I make a visit to the famous "Violin Villages" of Europe, where master Craftsmen—father and son—in their workshop-homes create by hand the instruments we offer here. Each violin bears the unmistakable individuality of its maker—each represents a cherished dream come true. Far from the beaten track of trade, whole families affectionately devote their lives to making instruments that either the finished artist or student is proud to possess. This season I have brought back from Europe the finest assortment we have ever offered. You will find a variety of models, a quality of material, a thoroughness of workmanship, a beauty of finish and a superior quality that positively cannot be duplicated at our *very reasonable prices.*

Accomplished artists and music schools alike, prefer our violins, for their superior tone and ease of playing. This letter from Kenneth Ogg, of Akron, Colo., is typical: "A violin I used before purchasing mine from Ward's, was an old Stradivarius, made in 1690. I cannot truthfully say that my violin is better than a Stradivarius, for he perhaps made the best— but my new one excels this particular one in fineness of tone on highest and lowest notes."

J. L. MITCHELL,

"Jacobus Hornsteinr" Violin
A Fine Imitation of an Old Violin

$28.65

Fine imitations of famous Old Violins are much in demand. This genuine Jacobus Hornsteinr is an exact copy of that old master model, the Stradivarius. All marks of age and use been copied even to the extent of showing where the varnish has been worn off by the chin. Every quality that the exacting musician demands—richness and power of tone, beauty of wood and faultless workmanship—is revealed in this superb instrument. The body is of extreme width, which gives the greatest possible vibrating surface, producing a wonderfully resonant tone. This is truly a violin with a personality. The workmanship of the expert is apparent in every detail.

Two-piece back of selected and thoroughly seasoned maple, with sides to match. Top is made of finely grained and resonant spruce. Highest grade ebony fingerboard, tailpiece and pegs. Covered with soft, tone producing varnish, delicately shaded a rich golden-amber color and highly polished. The tone is clear throughout the entire scale and of sufficient power for regular orchestra work, as well as for home or concert work. State color wanted. Ship. wt. 8 lbs. Color card showing actual color and shading sent on request.

The Concert Master of the New York Symphony Orchestra Says:

Eugene Meinel,
Markneukirchen,
Germany.

"The instrument that I purchased from you has given me great satisfaction. The tonal qualities are of the richest, and I feel that the more I play on it, the sweeter its quality. Lots of success for your achievement in building such an excellent Violin."
Mischa Mischakoff

NOTE. Mr. Meinel has consented to our publication of this great compliment to his skill.

A ripple of the fingers—a sweep of the bow, and this Master Violin from over the sea has told the story of its classic birth. As you listen to the sonorous tone of this, our Best Violin patterned after the celebrated Stradivarius model, you marvel no longer that it numbers among its friends, artists of national fame—you understand the enthusiasm of the New York Symphony Orchestra Concert Master when he writes: "Its tonal qualities are of the richest!" Responsive to every mood of its master, it has a sparkling, full and brilliant tone for concert and orchestra. Sweet and deep are the strains of the strings, when muted—and always flexible and true in every register.

Big Bargains in U.S. Army Goods

EVERY garment shown on this page would meet the rigid specifications of the strictest Quartermaster General for the purpose it is expected to serve. You will readily note their superior quality when you make comparisons with similar garments sometimes sold under the name of army goods. Every inch of material—every detail of workmanship—every bit of cloth or leather—every stitch, seam or button—in supplies purchased by the U. S. government must come up to the most rigid specifications.

The garments shown on this page are guaranteed Army Goods—either as originally issued or with extra features we added to meet your special needs. In a few numbers, the government supply already being exhausted, we faithfully duplicated the original articles to meet the demand of our customers.

These bargains are, we believe, the biggest values in Work Clothing ever offered for the money.

Original U. S. Army Jerkin Genuine Glove Leather

$1.98

The last of the original U. S. Army Jerkins—only a small stock left. If you have sought the protection of a jerkin against a sharp wind—you know how good it feels. Here is one of these Jerkins ready for the first cold snap. Enjoy the protection it gives you against the cold. Slip it on under your overcoat—or slicker—and see how snugly warm you will be in the rawest wind—or in a cold driving rain.

The outside body is a strong soft, pliable glove leather, specially tanned. It's lined with a strong, heavy blanket cloth. Average length, about 29 inches.

This is your last opportunity to get one of these fine Jerkins. They are a great value at our bargain price.

SIZES: Chest 36, 38, 40, 42, 44, 46 inches. State chest measure wanted. Read "How to Measure" on Page 238. Ship. weight, 3 lbs. 2 oz.

4 G 6910—Tan only..... $1.98

Soft Genuine Leather Two Convenient Pockets

$2.49

The same as the garment shown at the left, with two handy pockets added—a convenience that will be appreciated by many outdoor workers, hunters and campers.

Slipped on over your suit coat or work shirt it will keep you comfortable in wind or storm. Nothing stops the wind so well as leather. Light in weight, roomy, it is exceptionally desirable for the active man who wants working freedom without the weight and length of an overcoat.

Of soft pliable grained leather, with heavy, strong blanket lining; roomy armholes; strong seams—a sturdily made, well finished, good looking garment. Length about 29 inches.

SIZES: Chest 36, 38, 40, 42, 44, 46 inches. State chest measure wanted. Read "How to Measure" on Page 238. Shipping weight, 3 lbs. 4 oz.

42 G 6911—Tan only..... $2.49

Genuine Sheepskin Glove Leather

$4.59

For work or play, driving, hunting or hiking—late fall, winter or early spring, when an overcoat would be bulky and cumbersome—you will find these blanket lined Leather Jerkins an immense comfort.

You men who like plenty of body freedom, and warmth without weight, will certainly appreciate them. The outer leather stops penetrating winds—keeps out the rain, cold air—the heavy blanket lining keeps the warmth in.

They're good looking, too; another reason for their great popularity. Constructed from the original U. S. Army jerkin, with a body of the best select tan sheepskin leather and high-grade blanket lining, with full cut, roomy sleeves. Knit collar and cuffs for added warmth and protection. Two generous size pockets offer an extra convenience. Average length, about 29 inches.

Any man who spends all or part of his time outdoors needs one of these jerkins—at the price we offer them they are an immense value.

SIZES: Chest 36, 38, 40, 42, 44 inches. State chest measure wanted. Read "How to Measure" on Page 238.

Shipping weight, 4 lbs. 10 oz.

42 G 6912—With Moleskin cloth sleeves..... 4.59

Heavy 32-Oz. Melton Cloth Warm and Serviceable

$5.45

You will see busy, active young men everywhere—college men, sportsmen, workers—wearing Blazers. They wear them at work—and at play. They're attractive—handy—and afford warmth and protection without the burdensome weight and bulk of a coat.

Our heaviest winter-weight Blazer. Just to put it and feel its fine material will make you want to wear it—once you wear it and enjoy its comfort for at least two seasons, you'll never again want to be without one.

It's made of a heavy weight, All Wool, 32-ounce melton cloth with a plain All Wool knit bottom and convertible collar. The neat olive drab color is very practical. Your friends are certain to admire its neat appearance.

Wear it on the coldest days—enjoy its warmth and freedom for action—and you will appreciate what a value it is at our low price.

SIZES: Chest 34, 36, 38, 40, 42, 44, 46 inches. State chest measure wanted. Read "How to Measure" on Page 238. Shipping weight, 4 pounds 8 ounces.

4 G 6447—Olive drab only..... $5.45

U. S. Army Blouse Original Issue

$1.69

For the man driving a truck or a wagon—the farmer, repair man or freight yard man—these Army Blouses of All Wool Melton Cloth are ideal work garments. They are sturdy, warm, comfortable—they have protective features not found in ordinary work coats—and are an enormous bargain.

They will stand continuous hard usage; button them up and they give full protection in a biting wind or rain. The supply of these Blouses—the last of the U. S. Army surplus stock—may be exhausted this year. They originally cost the Government about $6 apiece. At the price we offer them, they could not even be manufactured.

If your work is outdoors—in all kinds of weather—you will be wise to order at least two of these blouses. You are not likely soon again to find such a value for so little money.

SIZES: Chest 32, 33, 34, 35, 36, 37, 38, 40 inches. State chest measure wanted. Read "How to Measure" on Page 238. Shipping weight, 2 pounds 12 ounces.

42 G 6791—Olive drab only..... $1.69

Sturdy All Wool Worsted

$3.69

To surveyors, civil engineers, linemen—all men whose work requires ample freedom of action—these Army Style Breeches need no introduction.

Knowing that the surplus U.S. Government supply of Wool O.D'S. was exhausted—and to meet the great demand—we have had these breeches made up especially for us of an exceptionally strong olive drab, All Wool Melton Cloth. Unlike the inferior garments now offered elsewhere, these breeches are honestly and sturdily constructed. Similar in every detail to the original Army issue.

You men who have been wanting a pair—or whose supply is running short—will do well to lay in a reserve stock now. Considering the quality, at the price we offer them, they are a positive bargain.

Belt loops; two front, two hip, and one watch pocket; all strain points bar-tacked; double reinforcement patches at knees; lace bottom style.

SIZES: Waist 28, 29, 30, 31, 32, 33, 34, 36, 38, 40, 42 inches. State waist measure wanted and see Page 277 for inseam length and "How to Measure." Shipping weight, 2 pounds 2 ounces.

42 G 5140—Olive drab only..... $3.69

Heavy Khaki Twill

$1.49

The last of the surplus stock of Army Khaki Breeches. Excellent grade khaki twill, made to the exacting U. S. government specifications—a value that will be impossible to duplicate. Justly popular with all outdoor men, both because of their snappy appearance, and sturdy wearing qualities. Belt loops; two front, two hip and one watch pocket; double reinforcements at knee; strain points bar-tacked. Lace bottom style.

SIZES: Waist 30, 31, 32, 33, 34, 36, 38 inches. State waist measure wanted and see Page 277 for inseam length and "How to Measure." Shipping weight, 2 lbs. 4 ounces.

42 G 60— Olive drab only..... $1.49

Noted for Long Wear

$3.39

Farmers, mechanics, railroad men, factory workers—men everywhere—have a decided preference for these Trousers. They know how well they wear under all working conditions, how neat they look, and what an immense value our low price offers.

To meet this popular demand we purchased a huge quantity of an extremely durable olive drab All Wool Melton Cloth—similar to that used by the U.S. Government—and had these trousers made up to the rigid standard of the original regulation Army issue.

Honestly made in every way—not to be confused with inferior grades being sold elsewhere—they're the ideal trousers for the men whose work requires garments that will stand a lot of hard wear—and yet demand a presentable appearance.

Belt loops; suspender buttons; two front, two hip and one watch pocket; all strain points bar-tacked; plain bottom style.

SIZES: Waist 30, 32, 34, 36, 38, 40, 42 inches. Inseam 30, 31, 32, 33, 34 inches. State waist and inseam measure wanted. Read "How to Measure" on Page 238. Shipping weight, 2 pounds 2 ounces.

A Record Bargain
Oliver Twist Suit

40 G 3636—Oliver Twist Suit... $1.00
One of our gigantic purchases is behind this great offer. We honestly believe it's the greatest value obtainable. Made by one of the best boys' novelty suit manufacturers in America—proof of its wonderful quality. Well made tan waist of strong cotton crash. Pants are sturdy cassimere—of 80 per cent wool and 20 per cent silk in a medium shade of rich brown. Unlined. This attractive combination looks well on any youngster. Mothers will do well to take advantage of the saving!
SIZES: 3, 4, 5, 6, 7, 8 years. State size. Read "How to Measure" on Page 252. Shipping weight, 1 pound 6 ounces.

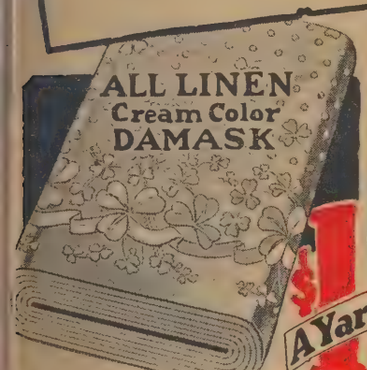
Dollar Special
Lowest Price in Years

32 G 163—Assorted light stripes only. $1.00
SIZES: 34-36, 38-40, 42-44-inch bust. State size wanted.
Shipping weight, 14 ounces.

Why not be delightfully warm and comfortable every cold winter night! Buy a season's supply of these lovely Nightgowns of soft, extra heavy flannelette—now—for they are at the lowest price since before the war. You can depend upon them to wear and wear—their serviceability is surprising. And they'll keep their downy softness of texture even after much laundering.
Carefully tailored, they are very good looking. Made with high V-necks and long sleeves, and double front and back yokes for extra warmth and durability. Rayon embroidery and neat hemstitching trim the front. Full, roomy sizes. Strongly felled seams. Closes in front with three buttons. Length, about 52 inches. An exceptional bargain.

Lightly Fleeced Cotton
Amazing Bargain!

Cream Color Only
29 G 175—Long sleeve, ankle length.
SIZES: 34 to 46-inch chest. State size.
Shipping weight, each, 1lb. 6 oz.
The first time in ten years that we have offered this weight and quality cotton Union Suit at so low a price! Fine ribbed heavy winter weight, lightly fleeced for warmth. Cuffs on sleeves and ankles. Flat collarette neck fits snug. Neck and front trimmed with rayon stitching; closed crotch; wide lapped seat. All seams flatlocked. Reinforced shoulder prevents sagging. It's the biggest bargain we could get in men's union suits for this money-saving page!



A Startling Linen Bargain

Width, about 70 inches
20 G 8303—PATTERNS: Assorted floral or spot designs. State pattern wanted.
Shipping weight, per yard, 12 ounces.
Extra strong, extra heavy—All Pure Linen Damask for tablecloths that have to stand the hardest kind of wear. A new low price, too; a price that's only a little higher than that of cotton. And you get a linen that will "wear like iron"—whose soft cream color will bleach with washing to a silver white. The patterns are very pretty—they're much like those you see on linen priced much higher. Thrifty women will take advantage of this opportunity to buy enough for several tablecloths.

Our Greatest Sewing Machine Bargain

Famous Damascus Vibrating Shuttle Machine

Drop Front Cabinet—Automatic Lift

Enormous purchase makes this bargain possible. The materials and workmanship combined in the construction of the Damascus Vibrating Sewing Head are of the finest. Rich Golden Oak cabinet, handsomely finished. Top, lid and front are quarter sawed oak. Small insert shows the working principle of the Drop front and automatic lift. Lifting the lid of the machine raises the head into position, and the front of the cabinet swings back to allow plenty of knee room. When the head is lowered, the front panel drops into place making a neat, compact cabinet. If you will take advantage of our Easy Payment Plan you can have one of these machines in your home and pay for it as you use it. Use the Damascus for thirty days in your own home. tell us the truth, and our
gue descriptions tell YOU
uth.

UR LAW OF QUALITY is more rigidly enforced, we believe, than any law of the land.

Just as our national laws are made by the people, and for the people, so also is our law of quality made by you and by our millions of other customers as an expression of your standards.

But did you ever stop to think of the vigilance it requires to check the Quality of every article we show in our catalogues—how strict we have to be with every manufacturer? If you have, you must realize the responsibility we place on our Chemical and Testing Laboratory to see that everything we sell measures up to the high standards you have demanded.

In some ways you might consider our chemists as your own personal police force, guarding your investments in the articles you buy from us and enforcing your law of quality.

It is only because our staff of highly trained laboratory experts actually test incoming shipments that we can KNOW the quality is right; and we can thus afford to guarantee your complete satisfaction. They work with our buyers in specifying how things should be made and what materials should be used. Then they test and inspect, with all the latest scientific apparatus, to see that you get the quality we promise. Thus when you expect an article to be all wool or all silk, you can depend on our catalogue descriptions, for they follow our chemists' reports to the letter. Everything is tested to see that manufacturers have lived up to specifications.

We believe your good will and continued friendship are worthy of this exceeding care. In no other way can we be sure that everything you buy from us will give you the service you have a right to expect.

Auto Supplies

Not one of our 8 million customers can be more critical than we are regarding the quality of our auto supplies, tires, tubes and batteries. They must pass the rigid inspection of our Testing Laboratory. Actual road tests are used to supplement laboratory tests; thus we know how each article will serve you in everyday use. We reject any article that won't stand our rigid tests.

Leather

Samples of incoming shipments of shoes, harness, belting, luggage, and every leather article we sell, are tested for strength, durability, water-resisting qualities and genuineness. Every shipment is rejected that fails to meet our required standards.

Foods and Drugs

In no department of our business are we more cautious and critical Foods and drugs must be PURE There is only one standard, and that is 100 per cent. With the Polariscope we can determine the quality of Sugar in Candies, Syrups and Extracts, and we reject everything that does not measure up to the high standard set by the Pure Food and Drugs Act. In testing drugs we follow the United States Pharmacopœia, the recognized medical authority. No lesser standard would meet our requirements. No lesser standard would satisfy our millions of friends and hold their friendship.

Our Guarantee

The Mail Order Guarantee Originated by A. Montgomery Ward and Our Guiding Policy for 55 Years.

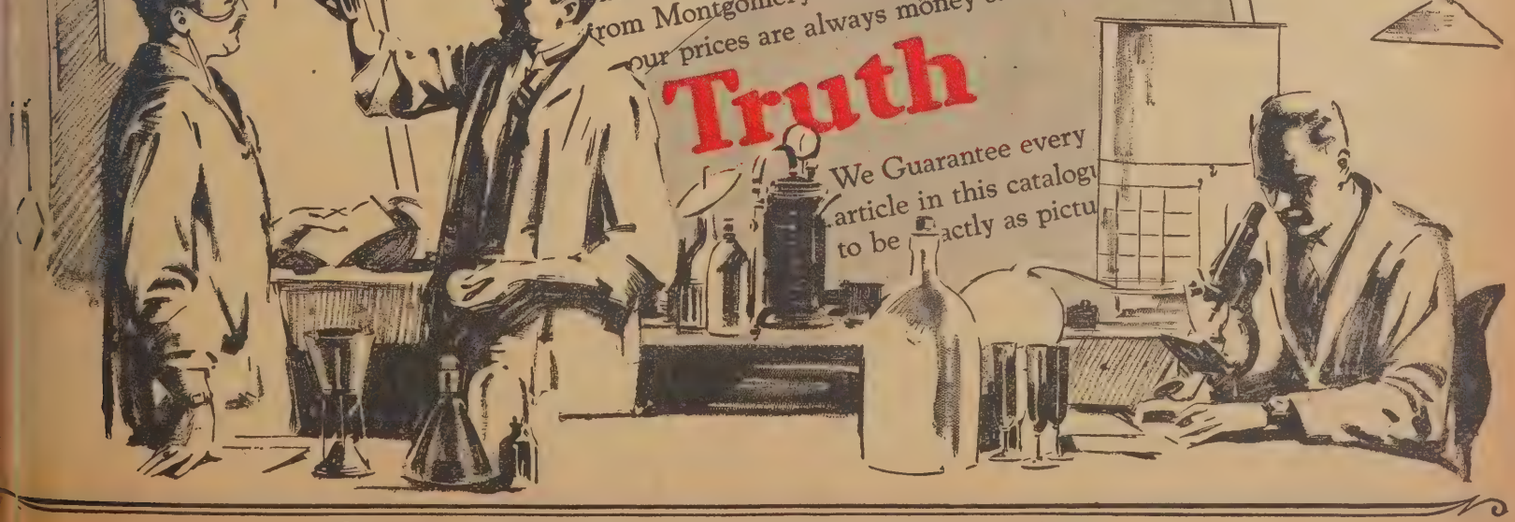
our prices are always money-saving prices.

Truth

We Guarantee every
article in this catalog
to be actly as pictu



We search the world over for new merchandise of *better quality* - and purchase enormous quantities to give you a *lower price!*

-and 24 hours

after your order is received, it is filled and packed and shipped by fastest trains. Each of our stores is equipped with an elaborate system of labor and time saving conveyors to give you this speedy service. And to save you even greater time and extra freight charges, we have hundreds of warehouses located throughout the country from which we ship many of the heavier articles we sell.

Complete stocks, experienced employees, expert packing and a thorough knowledge of the shortest routes to every town in the country—these are the factors which make Ward's service quicker, better, and more reliable.

HERE and there throughout this catalogue, you have probably noticed reprints of letters that our customers have sent us, telling of their satisfaction. These few hundred letters are but a handful compared with the thousands we receive. They are undeniable evidence that those who write them are pleased with our quality, and want others to know it.

But after all, the most convincing proof of our high standards of quality is the fact that our customers not only write us, they tell their friends. And this message of satisfaction has traveled, until today we serve over 8 million thrifty families with the needs and luxuries of life.

Some factories we own; from others we often take the entire output. We buy from the maker and sell direct to the user. The biggest manufacturers in America and abroad seek to sell their products in our catalogue. They want our big orders, so they reduce prices to the limit to keep their factories busy during seasons that might otherwise be dull. Is it any wonder, therefore, that we can save you so much money?

That is why you cannot use ordinary price standards to judge the quality of the articles you find in this catalogue.

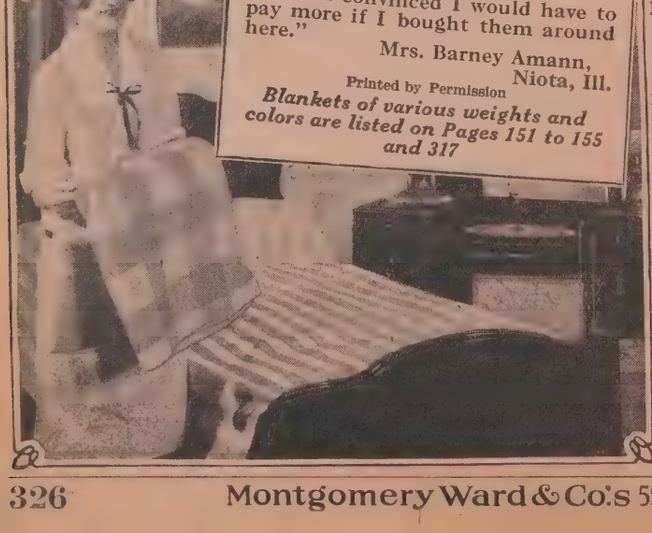
"Bound Better Than Most Blankets"



"The Blankets I bought from Ward's are certainly warm on cold nights. They are bound better than most blankets a person buys these days. The color is very pretty.

"I am convinced I would have to pay more if I bought them around here."

Mrs. Barney Amann,
Niota, Ill.

Printed by Permission

Blankets of various weights and colors are listed on Pages 151 to 155 and 317

"Saved at Least $2.00 a Gallon"

"I have put on 100 gallons of your House Paint, as this is my business: carpenter work and painting. It has given me the greatest satisfaction. "I consider I saved at least $2 a gallon, as paint here costs $4.50 a gallon. I order many gallons for others."

"Saved Over $20 on my Kitchen Cabinet"

"My Kitchen Cabinet saves me thousands of steps. It also affords a nice place for my dishes and all other kitchen utensils. All my friends think it is very nice.
"I saved over $20 on my Kitchen Cabinet by ordering from Ward's. I certainly could not do without it now."

Mrs. M. P. Manspile,
Rapps Mill, Va.

"Easy on Gas and Oil"

"My Sattley Gas Engine starts the easiest of any gas engine I have ever seen. It gives me all the power I need, and more besides. It is easy on gas and oil and runs very smoothly.

"I have looked at other gas engines at different prices, but they did not compare with the Sattley."

Charles F. Wilson,
Elizabeth, Pa.

"A Beautiful Naturalness of Tone"
"The Melophonic provides unmeasurable pleasure to us by its beauty of tone and cabinet. Its volume is amazing, but at its loudest, it retains a beautiful naturalness of tone.
"It is as graceful and distinctive as any I have seen."
Wm. A. Beaty, Plant City, Fla.

"I Have Never Seen Better Made Furniture"

"I am very much pleased with the Living Room Set I purchased from you. The chairs are very easy and comfortable and the davenport is simply luxurious. "I have never seen better made furniture. The workmanship is perfectly wonderful. It would cost much more if bought locally."
Mrs. Samuel E. Haskins,
Woodland, Maine

"Our Airline Has Never Failed Us"

"I am very satisfied with the Radio and the Loud Speaker. I have heard all kinds of radios but would not trade our Airline for any of them.

"We have had bad radio weather but our Airline has never failed us." Mrs. E. Boucar, Hartford, Conn.

"It Is Water-proof and Weather-proof"
"Your Radio Roofing is very satisfactory. It is water-proof and weather-proof, easy to lay, and the two-inch water-tight lap joint kept it from warping and buckling.
"It is better than we can buy locally at $3.50 a roll. The slate lays on fine and is very neat in appearance."
Fred B. Main, Ridgefield, Conn.

"I Have Never Worn Such Comfortable Shoes"

"I have never worn such comfortable shoes. This is my second pair of La Crosse, and I am more delighted than ever with them. I have been paying $12.00 for the same kind of shoes here. My friends agree that they are wonderful."
Mrs. W. F. Sherwood, Binghamton, N. Y.
Printed by Permission

Thirteen styles of La Crosse Shoes are shown on Page 178

"Makes Nice Even Stitches"

"My Sewing Machine does perfect work on any kind of material. Runs easy and makes nice even stitches. The attachments are very useful.

"A machine as good as mine bought locally, would certainly cost from $20 to $25 more than your price."

Mrs. W. C. Haithcock,
Warrenton, Va.

"Made Full and Roomy"

"The quality of the material in the Invincible Shirts is the best. It is closely woven and sunshine and constant washing does not affect the color one particle.
"The shirts are made full and roomy. The double stitched seams and the unbreakable buttons are real life-savers."

Gilbert McCall,
Phelps City, Mo.

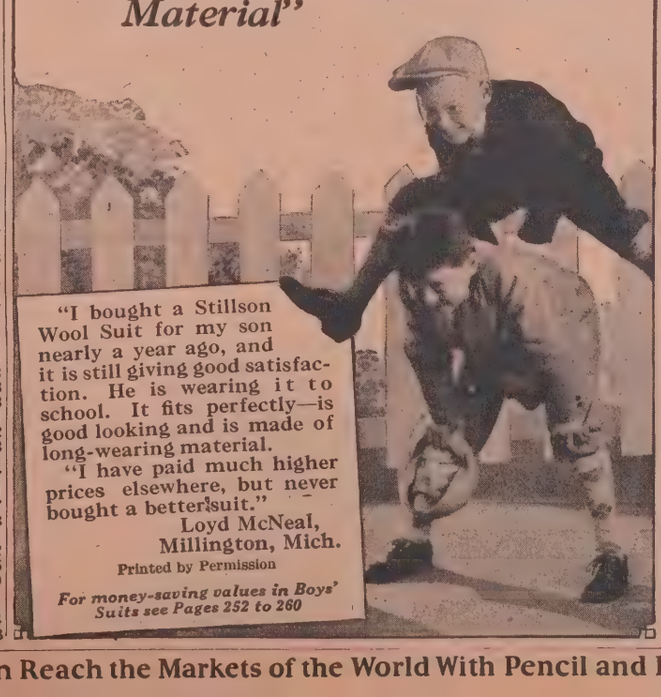
"It Is Made of Long-Wearing Material"



"I bought a Stillson Wool Suit for my son nearly a year ago, and it is still giving good satisfaction. He is wearing it to school. It fits perfectly—is good looking and is made of long-wearing material.

"I have paid much higher prices elsewhere, but never bought a better suit."

Loyd McNeal,
Millington, Mich.

Tires - - - "22,000 Miles and Good For 10,000 More"

"I have run my Riverside Tires 22,000 miles and they certainly look good for 10,000 more.

"The tubes I bought with them are also holding their own for quality and endurance." Wm. E. Mayo, Troy, N. Y.

"I appreciate the value of the Linen Table Cloth and napkins that I ordered from you. The pattern is very pleasing and the finish remains as beautiful after laundering as before.
"I am certain I saved considerable money by ordering from Ward's."

"The Savings on Sugar Alone Often Pay the Freight on the Entire Order"—*say many customers*

For example, an order weighing 150 *pounds can be shipped* 500 *miles for only* $1.00

Our prices are so much lower than those of the average store, that you can always pay the small freight charge and still make a remarkable saving by purchasing from Ward's. In fact letters from many customers tell us they saved as much as half!

No matter where you buy your groceries, you pay the freight charges, because every storekeeper must have the goods shipped to him, and the freight becomes part of his selling price—the price you pay! Join the million families who supply their tables with our wholesome quality groceries every year at money-saving prices. Send for our Free Grocery Catalogue today and start to save.

Here's one of many!

Mr. Wayne B. Holt
Ashtabula, Ohio
writes:
"We received our large order of Groceries. We think there can be no other brands the equal of those Ward's carries. Every article was so fresh and tasty. We saved $25 on our $60 order after paying the freight."

How to Order

Use Order Blanks in Back of Book or Any Plain Sheet of Paper If You Prefer

BE careful to give a complete description of the goods you want. Samples of properly filled out order blanks are printed on Pages 720 and 722.

Send your remittance by personal check, by money order, or in any other convenient form. If you live on a rural route, the carrier will buy a money order for you. If you send cash, be sure to have it registered. *If you order by parcel post, be sure to send enough money for postage; we will refund any balance not used.*

Other Useful Information

Send Enough Money for Postage

It is easy to figure how much money to send to pay for the stamps on your Parcel Post shipments. On the opposite page we tell you just how to find the weight of your package and the amount of postage required.

Be sure to send enough for postage; if you send too much we will, of course, refund any balance due you.

Freight and Express Shipments

Freight charges are low. Anticipate your needs. **Build up your order to 100 pounds or more.** Freight is the cheapest transportation—it saves you money and is the same as an added discount. It means the **lowest price** for goods delivered from Ward's to your home. It is not necessary that you send money to pay freight or express shipping charges if there is an agent at your station, as you can pay him when the shipment is received. If there is no agent send us sufficient additional money to prepay the freight or express charges. For further freight and express information, see Page 344.

Easy Payment and Credit

For Special Order Blank see Page 725. Easy payment terms can be given only on merchandise for which catalogue easy payment prices are quoted.

Special Sizes and Colors

We carry in stock only articles of the sizes and colors shown in our catalogues. We are telling you this to save you the trouble of writing to us for special sizes and colors which we do not list.

For Quicker Service

When Returning or Exchanging Goods

Follow This Information

We try to serve our customers so well that it will not be necessary to return anything. However, we want you always to be entirely satisfied; and under our complete guarantee you may send back any article which is not perfectly satisfactory.

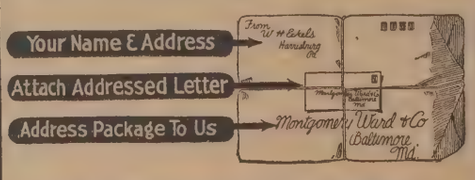
By Parcel Post

Address the package to us and also show your own name and address on it (see picture below). Write us a letter telling why goods are returned and whether you wish other goods in exchange or your money refunded. Place this letter in an envelope addressed to us. **Seal the envelope and paste it on the package under the string, as shown below. Do not seal the package.**

Place a two-cent stamp on the envelope and sufficient postage on the package.

In this way the package and letter will reach us at the same time, which will enable us to give them our prompt attention.

Do not enclose your letter inside the parcel, as that is against the postal regulations.



By Express or Freight

Pack securely and address to us, and be sure that your name and address are on the package or crate. Deliver to Railroad or Express Company, whose agent will give you a receipt. Enclose the agent's receipt in your letter to us.

To Send Goods to a Factory

If the merchandise was shipped to you direct from one of our factories, **be sure to write us first** for shipping instructions before returning it.

Club Orders Save You Money

By getting neighbors or relatives to include their orders with yours, you can often build a freight order and thus reduce the transportation cost to each person ordering.

Change of Address

Let us know whenever you change your address. We want to be sure that your goods reach you promptly and in the best of condition. You will receive our catalogues more quickly if we know exactly where to send them. The best way to do this is to use your new address in the spaces at the top of the order blank, and also give us your old address in the space provided at the bottom of the order blank. **If you receive two copies of the same catalogue, please notify us so we can correct our mailing list.**

Shipments to Other Persons

If you want goods shipped to someone else, make out your order in the usual way and write across order thus: *"To be shipped to.....* (filling in, of course, the correct name and address).

Different Shipping Point

If your shipping point is not the same as your post-office, there is a space marked "Shipping Point" at the top of the order blank in which to give us the proper shipping instructions.

We Have No Agents

Ward's has no agents authorized to collect money from our customers. We give no discounts or commissions. Prices are strictly as quoted in our catalogues.

How To Figure Parcel Post Charges

Parcel Post Charges Are Low

You will find parcel post an inexpensive as well as a y convenient way of having most of your orders ship- to you. Parcel post rates are low. All you need to is send us enough money to pay for the stamps on ur package. **If you send more than enough, we l refund the excess amount.** You will be surprised v little it costs to have your orders sent by parcel post. stal deliveries are prompt and frequent. Your regular il carrier will deliver your orders to you.

It Is Easy to Figure How Much Postage to Send

. In each catalogue description we state the shipping ght in pounds or pounds and ounces.
. Write the shipping weights for each article on your er blank, in the columns provided.
. Add up the weights of all the articles on your order, ind the total shipping weight.
. Refer to the zone map below to find the parcel post e in which you live, either by locating your own town ne near you.
. Find the total shipping weight of your order in the column of the parcel post rate chart. The postage rges shown at the right of this weight, under the zone which you live, is the amount you should include with r order to pay the parcel post charges.

You Pay Only Actual Postage

We will refund any balance due you if you send more than is actually required for parcel post charges. **So always send enough money to cover postage.** You pay only the actual amount of the stamps required on your package to deliver it from our store to your home.

How to Estimate Shipping Charges

If there is an agent at your station, it is not necessary to send money for freight or express charges. You can pay the charges when you get the shipment, and they will be no higher than if we paid them for you. Charges should only be sent with the order when there is no agent at your station.

How to Estimate Freight Charges

1. Find the shipping weight of the articles you are ordering. This is given in each catalogue description.
2. Find the classification of your merchandise—whether 1st, 2nd, 3rd or some other class of freight. See Table A below.
3. Estimate the distance you live from shipping point by using the map on Page 343.
4. Find in Table B the estimated rates per 100 pounds, in the distance column. Use the rate given for the class of goods you are ordering.
5. Multiply the rate by the shipping weight of the articles ordered. You will then have the approximate amount of freight charges. See example below.

Example: Suppose you are ordering a stove weighing 235 pounds. Table A shows that stoves take 3rd class rate. Suppose the approximate distance from shipping point to your town, you find on the map on Page 343, is 300 miles. In the distance column in Tab below for 300 miles the 3rd class rate per 100 pounds is 62¢. tiply 2.35 times .62 and you get $1.46, the approximate freight cha

Table A — Explanation of Rate Classes and Abbreviations

The classification of freight is not the same throughout the country, and classes are given under the headings of E and S. Express rates given are for the entire country.

E—means East and applies to Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, West Virginia, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont.

S—means South and applies to Florida, South Carolina, North Carolina, Georgia and Virginia.

1st means 1st Class Rate.
2nd means 2nd Class Rate.
3rd means 3rd Class Rate.
4th means 4th Class Rate.
5th means lower than 4th Class Rate.
6th means lower than 4th Class Rate.
2x1st means two times 1st Class Rate.
1½ means one and a half times 1st Cl Rate.
1¼ means one and a quarter times 1st Cl Rate.
R25 means 15 per cent lower than 2nd Cl Rate.
R26 means 20 per cent lower than 3rd Cl Rate.
KD means knocked down or ship taken apart.
SU means set up or not taken apart.

How to Estimate Express Charges

Find the shipping weight of your order. Estimate the distance you live from the shipping point by using the map on Page 343. If your shipment weighs less than 100 pounds, refer to Table C at the right, which shows under distance column the approximate express charges on shipments weighing less than 100 pounds. If the shipment weighs more than 100 pounds, multiply the rate per 100 pounds shown in the bottom line, by the weight of your order. You will then have the approximate express charge.

Example: Suppose your order weighs 20 pounds and you live 290 miles from shipping point. Find the total weight, 20 pounds, in the first column. On the same line under 151 to 300 miles distance, is the amount, 77¢—the approximate express charge.

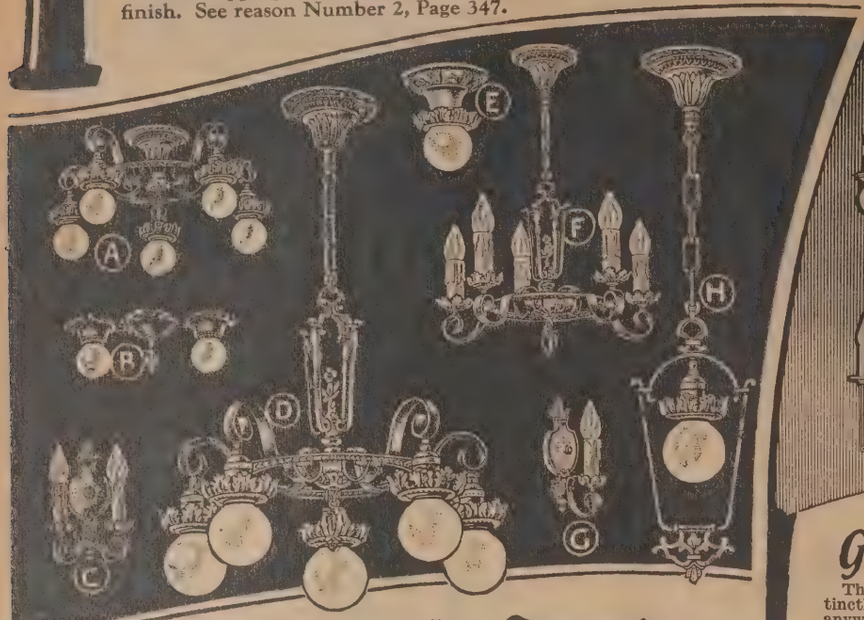
1 You Save Twice on These

The First Saving

When you buy Lighting Fixtures at Ward's you pay one-third to one-half less than you are asked elsewhere for equal quality. We offer you up-to-date, stylish fixtures at a great saving. In all our fixtures you get high-grade workmanship as well as appropriate and very beautiful finish. See reason Number 2, Page 347.



Exquisite Wrought Iron Fitments ~ Our Finest Quality

This new line portrays an improved and more graceful design in Wrought Iron. It at once suggests dignity and refinement and its usual retail price is at least one-half more than we ask.

The finish is in keeping with the style—a contrasting background of pale gold, shaded in olive with lighter touches of subdued color. The careful execution of details in the finish of these fixtures plainly shows the workmanship of master craftsmen. Fixtures with keyless sockets are for wall switch control. We recommend for candle fixtures, 2 5/16-inch diameter round bulbs in white or amber or the new flame shaped bulbs. For drop fixtures 3 1/8-inch diameter round bulbs in white or amber. Bulbs not included. See Page 352 for bulbs. Fixtures A, D and F not mailable.

A New Design in Cast Metal

Beautifully Finished in Old Bronze

These fixtures, new in design and construction, are of solid castings, and present a massive, rich effect. They will remain stylish and beautiful for years. The castings are made of a special metal which brings out the rather elaborate molded ornamentations to the best advantage. The finish is a reproduction of old bronze, enlivened with decorations in subdued colors. The fine lacquers used in obtaining this finish insures great durability.

The arms and the ring which supports the lights are of separate castings and we ship them unassembled, but completely wired to save on transportation charges. It takes but a moment to slip the pieces into place. No tools required. Fixtures with keyless sockets to be controlled by wall switch. Bulbs not included.

We recommend for candle fixtures, 2 5/16-inch diameter round bulbs in white or amber or the new flame shaped bulbs. For drop fixtures, 3 1/8-inch diameter round bulbs in white or amber. See Page 352 for bulbs. B, C and E not mailable.

Anyone Can Install Ward's Fixtures

Velvet Brown With Gold

Rock Bottom Prices

A group of Lighting Fixtures that represents, without doubt, the greatest values ever offered in dining room and living room lighting equipment. A special arrangement with the manufacturer, by which we agree to purchase thousands of fixtures, enables us to make these exceptionally low prices. Of fine materials, excellent workmanship and durable finish.

Heavy gauge genuine brass is used for the bodies. Candles are in old ivory color with drip effect. The finish is the durable velvet brown and gold that is so popular. It is expertly applied and can be easily cleaned with a damp cloth. Equipped with neatly embossed, satin white crystal glass shades or for use with ball lamps. The embossing on the shades is in a neat floral design.

Presenting the New SOL-RAY Flashlights — All Metal Construction

SOL-RAY

500-Foot Focusing — $1.59

I am sure this is America's greatest Flashlight value. You can pay more, but you cannot buy a better light. It is the finest type, and I personally recommend it for auto use and for campers, watchmen, engineers and farmers. It is the ideal ALL-PURPOSE flashlight. Of all metal construction, will stand hard usage and will remain in perfect condition long after other flashlights would be worn out.

C. J. MANNING,
Manager, Electrical Department.

The light is focused by turning head and changes gradually from 500-foot concentrated beam to broad flood ray. Scientifically shaped silver-plated reflector. Head diameter only 2½ inches. Length, 9½ inches. Finished in black lacquer. Has bulb protecting shock absorber and OFF-FLASH or STEADY switch. Complete with bulb and battery—for refills use Mazda bulb 63 G 2218 and battery 63 G 2222. Shipping weight, 1 pound.

63 G 2064 ..... $1.59

300-foot focusing lights same as above. Two-cell type. With Mazda bulb 63 G 2217 and battery 63 G 2221.

63 G 2062—Ribbed, black finish $1.29
63 G 2063—All nickel finish 1.35

New Low Prices

Now—for the first time—a line of ALL METAL Flashlights. A great improvement over old styles. By placing a large contract we are enabled to offer a superior light for less money. They are weather-proof and will last years. All cases of brass in ribbed design, except 63 G 2050 and 2051 which are smooth. All have safety switches and octagonal lens rings. Lenses are best quality flawless glass.

SOL-RAY

300-Foot Focusing — $1.18

Generally known as the Army-Navy type. Gives long focusing searchlight beam of over 300 feet projection. Extensively used by policemen, motorcycle officers, state troopers, army officers, sailors, scouts, etc. Compactness combined with the efficiency of the focusing light is its biggest feature. Fine for reading sign posts from the car. Has special shock absorber which protects the bulb and insures positive electrical contact. Case all metal construction. Diameter of head, only 2 inches. Length, 6½ inches. Complete with bulb and battery—for refills use 63 G 2221 battery and 63 G 2217 bulb. Ship. wt., 1 lb. 8 oz.

¼ Horse-Power Electric Motor

No Extras to Buy

Complete With Cord, Plug and Pulley

$9.95 Save $5 to $10

POWER—DEPENDABILITY—two things you want most in a Motor are offered here at a saving of $5 to $10. These sturdy, powerful, ¼ horse-power Electric Motors are giving dependable service to thousands of our customers. Day after day, the year round, they are working for their owners—in shops, garages, on farms and in homes. "This little Motor has been doing splendid work on a washing machine ever since we received it. It hasn't given us a bit of trouble and we are well pleased with it. We saved quite a sum in the price." So writes G. W. Purinton of Spencer, Iowa. At a cost of a few cents per hour these motors are faithfully turning small lathes, drill presses, buffers, grinders, hand power washing machines, and cream separators. Run quietly and continuously for hours without overheating. With ordinary care will last for years.

Motor is entirely enclosed except for ventilator, making it practically splash-proof; not the cheap open end type. Specially designed oil reservoir and oiling system—with ordinary usage will run six months without oiling. High quality bronze bearings. ½-inch shaft. Equipped with 2-inch grooved pulley for ⅜-inch round belt, ten feet of high-grade water-proof cord, and attaching plug. Shipping weight, 45 pounds. Mailable.

New Powerlite Batteries

Automatic Charge—Discharge Indicator

We guarantee these Batteries to give lighting service for three years when installed and operated according to our instructions, and when so used will usually last from 5 to 7 years. If for any reason the battery proves defective or does not give good service within the three year period, we will make an adjustment allowance toward the purchase of a new battery on the basis of time in service.

Heavy duty plates are 5¾ by 7 inches and 7/32 inch thick for positive and 3/16 inch thick for negative, except outside negative which are ⅛ inch thick. Clear heavy glass jars. One cell in each set has automatic indicator which shows at a glance the condition of charge. Sixteen cells per battery shipped fully charged and complete with connectors and one hydrometer. The two smaller sizes recommended where plants are used for lighting purposes fans, or vacuum cleaners only. Larger sizes should be used where plant runs power equipment such as flat irons, toasters, glow heaters, and motors of ¼ horse-power or more in addition to lighting equipment. Larger sizes last longer between charges, and have longer life as well. No. 263 G 509 is a replacement for Delco 160 ampere-hour battery. Batteries shipped from Factory in Central Wisconsin. Sold on easy payments of only $15 down, one year to pay. Use Easy Payment Order Blank on Page 725. See "Estimated Total Freight Charges" above.

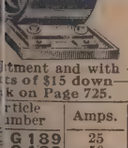
Powerlite Generators



Shunt wound Powerlite Generators are especially adapted for farm lighting plants and can be operated by belting to the flywheel of an ordinary 3 or 5 h.p. farm engine. The ratings given below are for continuous loads. The 50-ampere size is for the plants employing larger batteries such as our 263 G 511. The charging rate can be controlled by the addition of the rheostat listed below. Generators are equipped with sliding base for belt tment and with 4 by 3 by ¾-inch pulley. Sold on easy pay- ts of $15 down—one year to pay. Use Easy Payment Order k on Page 725.

Single Braid Rubber Covered Copper Wire

All Ward's Wires Are Approved by Underwriters

THOUSANDS of home owners and contractors save money each year, by ordering their wire needs from us. This wire is approved for knob and tube and conduit work. Each unbroken 500-foot coil bears the Underwriters' Laboratories, Inc., inspection tag. The wire is insulated with rubber and covered with tightly woven, heavy black cotton braid. The white wire is exactly the same construction as the black, except for the white cotton braid.

This Service Is FREE

Write our Electrical Department for advice regarding wire, wiring materials, or any electrical problem you may have. This service is absolutely FREE.

Our staff of expert electrical engineers will be glad to answer any questions and give complete and detailed estimates on the cost of wiring your new or old house. Send a diagram of the rooms you desire wired, naming the rooms and giving the sizes. Indicate way the joists run, and where you want lights. State whether building is completed or under construction, also where wires are to enter. Tell us whether you intend using conduit, armored cable, (sometimes called BX), or the knob and tube systems of wiring. The clearer your drawing and the more complete your information, the better our engineers can serve you.

We will also answer questions regarding any electrical equipment you may have or wish to order. When writing about equipment state the kind of current you are now using, whether alternating (AC) or direct (DC) and tell us the voltage. If alternating, state number of cycles.

When you order wiring materials from our estimates, we include free, an illustrated wiring book. If you wish the book separately, order by article number below. Shipping weight, 6 ounces.

Blue Line Waffle Iron

Highest Grade Heating Element

Note These Features

1. Ever-Cool Handle.
2. Die Cast Aluminum Grid. Diameter, 8¼ Inches.
3. Drip-Proof Ring.
4. Expansion Hinge. Batter Rises Evenly.
5. On-Off Switch. Very Convenient. Current Saving.
6. Carrying Handles.

I personally believe this is the best value in a Waffle Iron ever offered you. In our Laboratory, where we test all makes of appliances, it compares very favorably with nationally advertised brands selling for as much as $15. It makes the tenderest, most delicious waffles I ever tasted.

C. J. Manning,
Manager, Electrical Department.

Of cold rolled steel, heavily nickeled and polished. Die-cast aluminum grids—overhang body—no crevices to catch batter. Drip-proof ring around outside. Requires greasing first time used only. Bakes a waffle a minute—both sides at once. With about 7-foot silk cord with on and off switch built into appliance plug. Height over all, 6½ in. Bakelite attaching plug. For any 105 to 120-volt current. Draws 660 watts. Ship. weight, 9 pounds.

Blue Line

A Sign of Quality

When you see the "Blue Line" label on electrical appliances, you may buy them with absolute assurance of their dependability. Quality built inside and out, they are thoroughly tested in our laboratory and must meet the rigid requirements we have set up for them before they are offered to you. Every piece of merchandise on these pages must pass our laboratory tests before it is shown in our catalogue.

Do not judge "Blue Line" quality until you make a direct comparison with appliances sold elsewhere at similar prices. We can offer you this high quality at these low prices only because of enormous quantity production. And remember "Blue Line" appliances are sold only by Ward's.

How to Order

Electrical Appliances

When ordering Electrical Appliances be sure to state volts and whether current is direct (DC) or alternating (AC). If A. C. state cycles. Appliances listed "For any 105 to 120-volt current" can be used on either direct or alternating current. Nearly always this information can be found on your electric meter or on any appliance you are going using.

Electricity is sold by the kilowatt-hour at rates ranging from 2c to 15c per kilowatt-hour (1000 watts). With electricity sold at 10c per kilowatt-hour, It costs 1c per hour for 500 watts, 2½c per hour for 250 watts, etc. If you know your current cost, it is easy to figure the cost of using them.

IMPORTANT!

Ward's made to order Elastics give relief and comfortable support for varicose veins and ulcers, bruises, swollen and weak limbs, sprains, wrenched joints, strained muscles, or after splints are removed from a broken leg. We supply any garment you may need, from Anklets and Knee Caps to Stockings and Leggings of garter, knee, or thigh length. Of best quality strictly fresh pure Para rubber. Can be cleansed by scrubbing with castile soap and warm water, using a nail brush or sponge. Let stocking dry slowly away from fire or radiator. Do not use hands to wring out water.

Seamless Hosiery

Only the best materials are used in making Ward's seamless silk and seamless cotton hosiery. Gives an even pressure at all points. It is more comfortable and less noticeable under your stockings than seamed hosiery. Our price is lower than you would usually be asked to pay for inferior elastic garments elsewhere, yet in making a low price, Ward's never sacrifices quality.

Seamed Hosiery

HAND MADE: Best where greater pressure is desired. The strong tape covered seam down the back is smooth and will not bind. Seamed hosiery fits well and gives excellent support. Materials are of the same high quality as our Seamless elastic goods.

Machine Made

Strongly made from good materials. Gives satisfactory service for temporary or athletic wear.

BE STRONG AGAIN! Your TRUSS Is Here! Your STYLE-Your SIZE

Are You Wearing the Correct Truss?

Your Truss should be carefully chosen to hold the rupture firmly and press upward and inward at the rupture ring without causing more discomfort than is necessary. Ward's trusses are all comfortable, serviceable and economical; the best made. We can supply your size. Be sure to consult your physician before ordering, if you have not worn a truss before, to determine the correct truss for your particular case.

How to Order

Place tapeline around the body, about one inch below the hip joints and draw tightly to place of rupture. Avoid any unnatural fullness in abdomen. A truss to fit correctly should fit snugly around the body slightly above the fleshy part of the buttock. We carry in stock the following sizes of all trusses: 30, 32, 34, 36, 38, 40, 42, 44 inches. If your measurement is an odd number, order next smaller size.

Trusses larger than those listed above made to order for an extra charge of 75¢. Shipped from Factory. Allow 8 to 10 days.

Hard Rubber Truss

Hood Style

Rubber Goods to Suit Every Need

Our exclusive contracts with manufacturers enable us to offer you a quality which others cannot duplicate at our prices.

Everything for the comfort of the sick will be found in Ward's complete stock of Sick Room Supplies. Our steel Hospital ware is triple coated enameled and cannot rust or corrode while our cotton gauze bandages and sanitary goods are aseptic and sterilized. Ward's prices save you money. For your protection our new Sanitary Rubber Goods cannot be returned after having been used.

Apex Brand

Of good quality flexible rubber constructed in one piece without seams. Full 1¾-quart capacity. The quality is such that it will outwear many ordinary brands. Our extremely low prices are due to a special concession made by a large manufacturer on a volume purchase which lowered the production cost. We pass this saving to you.

Lustrous Healthy Hair
Depends Upon Proper Care

Mulsified Cocoanut Oil Shampoo

Gives Hair Extreme Loveliness—Makes Modern Styles Most Attractive

Brings Out All the Natural Life, Wave and Luster. Gives That Wonderful Gloss and Silky Sheen Which Makes Your Hair So Much Admired.

The simplicity of the bob, and the modern styles of hair dress, make beautiful hair a necessity. It is the first thing in your toilette to be noticed. Happily, beautiful hair is now easily obtained.

It is in large measure a matter of shampooing. Ordinary, old time methods, however, will not do. To bring out the REAL BEAUTY, the real life and luster, natural wave and color, the hair must be shampooed properly.

While your hair needs frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why millions of women now use Mulsified Cocoanut Oil Shampoo. This clear, pure and entirely greaseless product cannot possibly injure, and it does not dry the scalp, or make the hair brittle, no matter how often you use it.

It keeps the scalp soft and the hair fine and silky, bright, fresh-looking, glossy and easy to manage.

Ward's DRUGS Are Guaranteed PURE

The Wardgrade Label on Drugs and Remedies is an Absolute Guarantee of their purity. I will not permit this label to be placed on any remedy until every ingredient has passed the most careful laboratory tests. Following the formulas of the United States Pharmacopoeia and National Formulary, endorsed and used by physicians, the ingredients are compounded scientifically by registered pharmacists into correct doses and put up in sanitary containers. You are sure of the highest quality drugs; yet our prices are surprisingly low.

Guaranteed Strictly Pure

Pure, Wholesome and Delicious

Candy is "pure" only when it is made from wholesome ingredients.

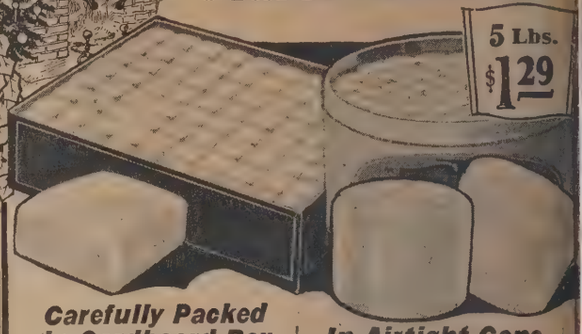
Full cream milk, best fresh butter, select nuts, luscious fruits, pure sugars, smooth rich chocolate, true flavors — these alone mean PURITY and wholesome goodness. Substitutes have no place in the making of any candy that is really pure.

Ward's guarantees absolutely the purity of the candies offered on these pages. All have been laboratory tested and measure up to highest standards.

You may select it—for gifts or for yourself—with entire confidence and safety.

Creamy Marshmallows

5 Lbs. $1.29



Carefully Packed in Cardboard Box | In Airtight Cans

DELIGHTFULLY fresh, soft, creamy—these inexpensive Candies continue to be one of our biggest sellers. They are so popular because of the many ways they may be served. The housewife finds many uses for them—for salads, cake frosting, baking, and dressing for desserts. Everybody likes them toasted at the fireplace or bonfire.

Ward's Marshmallows are fluffy, satiny in texture, and as smooth as butter. They are so wholesome and pure that the children may be given all they want without fear of harmful after effects. Carefully packed to keep them fresh. Those in tins will keep perfectly for months.

You can see for yourself that our price is exceptionally low for candy of such high quality.

Rose Border Dinner Set $6.98

If you want an especially dainty pattern order this set with its unusually attractive border. It is our best border pattern on our finest American semi-porcelain dinnerware. Beauty and strength are combined in this dinner set. A band of rich blue and gold has tiny groups of vivid pink roses. Panels and borders are outlined with a fine gold line and every dish is edged with gold. Handles have gold trimmings and each cup has a gold line around the inside. Pieces included in our dinner sets are listed in the center of the page. This is one of our most popular numbers with our customers because of its neat, colorful border design. Order additional pieces from the open stock listed in center of page under 550 G 2055.

Blue and Gold Dinner Set $4.98

Beautiful gold scroll between two dainty blue lines—one of the simple border patterns that have always been very popular. Its artistic design and pleasing coloring make it a charming service for your dinner table and one of which you will not tire. The border is 1/16 inch wide. On the inner edge of each dish is a fine line of blue and a bit of blue on each handle. It is semi-porcelain of a practical medium weight with a clear lustrous glaze. Only because Ward's buys so many of these sets and sells direct to you, can we offer you this remarkably low price—quality and beauty have in no way been sacrificed. High-grade American Dinnerware—attractive and durable. Pieces included in our dinner sets are listed in the center of this page. 32-Piece Set **$5.45**

Imported English Blue Willow Dinnerware

Made for us by an old, reliable English pottery—you may be sure that it is the highest quality, and not to be confused with inferior imitations being offered at reduced prices. Because of our tremendous purchase direct from the manufacturer we are able to give you this low price without the least sacrifice of quality.

The quaint charm of the Oriental pattern has endured for many centuries, and today is even more popular than ever before. The soft blue of the design is permanent as the pattern is under the glaze and cannot wear off. The legend of the Oriental design will always remain as appealing as the beauty of the ware itself.

Genuine Duco Finish—Finest Construction

Guaranteed Cushion Springs

Finished in genuine Duco, just like the finest big autos—London smoke gray with gold and white stripes. Highly polished, nickel-plated Paige type radiator front. Horn is French bulb type, with nickel-plated trimmings. All gears are encased. Black composition steering wheel with non-slip grip. Black crown fenders, maroon upholstering, nickel-plated trimmings, red disc wheels with black targets.

Our Finest Toy Auto—A Dream Come True!

A classy toy Cadillac Auto built like Dad's big car, with many accessories only smaller. It may be operated by any child from 5 to 11 years old. A unique feature of this little car is a patented mechanism under the hood, controlled by a lever that starts and stops a humming noise similar to a running motor.

A Gear-Shift lever actually throws car into low, neutral and high speed. Bicycle pedals and crank hangers to drive car at low or high speed. All working parts are suspended at 8 points on ball bearings. A brake band around a drum on the rear wheel stops the car quickly. Cushion springs make riding more comfortable. The 10-inch steel disc wheels, with roller bearings and 1-inch balloon tires add sturdiness. Front wheels are on knuckle type steering axles. Nifty looking hexagon headlights. The spotlight is attached to the transparent windshield. Length over all, 48 inches. Height to top of windshield, 26½ inches. Length from center of seat to pedal, at extreme reach, 20½ inches. Strongly put together with nuts and bolts. Carefully packed. Shipping weight, 130 pounds. Estimated Total Freight Charges for 150 miles, $2.73; 300 miles, $3.47; 500 miles, $5.38.

A 250-Mile Road Test Proved the Quali

As proof of the Honest and Superior Workmanship in every p of construction, two of these wagons were drawn by an automobile 250 miles with the following results:

(1) The wagons withstood the Test without a break, although a s of eighteen to twenty miles was maintained over concrete, brick, gr dirt and cinder roads. In actual use, a wagon is seldom pulled fa than three and one-half miles an hour by a child.

(2) The 1-inch rubber tires, made under special formula to insure silence and long wearing qualities, showed scarcely any signs of wear

(3) The double disc wheels, made of heavy gauge automobile body showed no results of wear whatever. Both the ball and roller-bea wheels, selected only after exhaustive tests in our Chicago laborato proved their superior quality. When tested individually, the wheels st a rim pressure of over 1000 pounds standing upright.

(4) With a load of fifty pounds the box came through in perfect condi It is of hardwood with the bottom tongued and grooved, fitted and g together under tremendous pressure—more substantial than a si piece, because of the additional flexibility.

(5) For maximum strength, bolsters of U-shaped channel steel and braces for the rear axle were used. The front brace has a specially signed loop around the front axle instead of being riveted on.

(6) Fastened behind the auto, the steel handle came in for a great of jerking and strain. It was still tightly fitted at the end of the trip.

Best Quality for the Money

For several years the country has been overrun with poorly made coaster wagons. Because of the confusing claims made for them, we proved with Actual Tests that we have not cheapened our wagons to competitive prices. We are protecting the quality of our coasters by tinuing to make them in our own factories.

Because of the service it will give you, you save much by purchas coaster wagon here. The tests described above are convincing proof sturdy construction.

Road Test Coaster Guarantee

On the strength of the tests we conducted, we named this new Ward's Road Test Wagon. We guarantee every part for a year and replace, free of charge, any wheel that breaks, comes apart or in any becomes unserviceable, if returned to us before the tire has been legitim worn down to the wire core in the center. We know of no other wag the world on which such a guarantee is offered!

The Finest Velocipede Built!

The manufacturer of this Velocipede has specialized on velocipedes for twenty-five years. Velocipedes are his hobby—and the better department stores everywhere feature his line. This is his greatest masterpiece. It was only by making an enormous contract that we are able to offer them at prices very little more than asked elsewhere for ordinary models.

Just note the superior features; the oversize nickel-plated front hub to match rear hubs; the malleable castings at all important joints. Notice the casting that holds the seat post. Note the housings of the ball bearings in the front wheel. Front fork casting is malleable and cannot be broken. Hand brazed bicycle tubing frame. Nickel-plated hub caps on rear wheels. Full ball-bearing with bushings twice as long as used on ordinary velocipedes. Genuine leather padded saddle with double coil springs, tool bag, oil can and wrench. Adjustable handlebars, black rubber grips. Ball-bearing pedals; heavy nickel-plated cranks with square axle sockets instead of rivets. Glossy black baked-on enamel finish with gold striping. Imported nickel-plated motorcycle bulb horn; mudguard over drive wheel; 1⅜-inch corrugated tread balloon tires. **Only small size is mailable.**

Roller Bearing—Brake De Luxe Model—1-Inch Tires

Children need exercise and outlet for their energies—a Ward Scooter will help to keep them contented and in robust health. These scooters are not to be confused with cheaper models of this type sold elsewhere. This scooter is made in enormous quantities in our own factory and that is the only reason we can sell them at this extremely low price. Scooters of equal value sell elsewhere for about $5.00.

Nothing has been sacrificed to make this low price, the same 10-inch, double disc roller-bearing steel wheels used on Ward's Famous Road Test Wagon are used on this scooter. Best quality, 1-inch rubber tires. The heavy, underslung bridge construction frame is of heavy steel, the same as used in our standard farm implements. Hardwood platform 4¾ by 13 inches covered with non-skid rubber mat. Equipped with a serviceable safety brake and strong, convenient parking stand. Wheels and frame are beautifully finished in Indian red. Has black handle which can be raised or lowered to suit rider. Length over all, 38 inches; height, 31½ inches. Shipping weight, 16 pounds.

Concave Runners
White Ash Tops

98¢ Each

Shoot down the hills like a rocket! The concave runners will hold straight to the track and take all the curves. Very flexible. The steel straps connecting front knees and steering bar, hinge on a bolt through the knee. This is a decided improvement, doing away with the resistance and splitting of the full length wood bar. The top is made of selected white hardwood natural finish, spar varnished and decorated in colors. Runners are heavy tempered T shape steel with concave shoes. The edges bite in like a well sharpened skate. Extra strong knee shaped braces are riveted (not welded) to runners and wood bolsters underneath the bed. The 32 and 36-inch size are available.

Snow Skates for Boys and Girls

Invigorating sport the little folks can enjoy. No ankle strain.

A child can put them on quickly and even the smallest tot can skate on these Snow Skates without tiring. Very light in weight and low set. They provide lots of healthful fun and strengthen the muscles in the legs. The children find them the very thing for skating on the slippery or snowy sidewalks going to school. One size suitable for all.

Made of selected hardwood, with concave steel shoe, nearly one inch wide fastened to heavy wood runner. The two edges of the steel shoe are fine on the ice, and on the snow, the width and concave surface causes the snow to pack underneath runner, making them almost like skis. Lengthens the skating season from the first snow until the last ice has melted from the sidewalks. They hold up equally well on soft snow. Just tie them on with the rawhide thongs over overshoes and leggings. A rubber pad on the skate prevents feet slipping. Wonderful for teaching young children to skate. Shipping weight, per pair, 3 pounds.

Combination Merry-Go-Round Slide—Seesaw—Roller Coaster and Parallel Bars

Take advantage of another of Ward's exclusive feature purchases. A Slide, Merry-go-round, Seesaw, Roller Coaster and set of Parallel Bars. With this outfit a child has a 7 feet high and 9 feet long; wide safe steps to mount, and an oil hardened hardwood board to slide on. A merry-go-round, 9 feet long, can be made by slipping the pivot pin into one hole in the top of each slide support and bolting slide board across top between cleats. To remove the pivot pin—place slide board across slide support to make a 9-foot seesaw; or one end of slide board on the slide support, with other end on sidewalk and roll down it as a roller coaster wagon. The flanged wheels prevent it rolling off the board before it gets to the end. These flanges engage the slide board before the inner wheels are free of the bars, preventing an unpleasant jar. Last and best the rounded parallel bars will be big space for fancy stunts. May be used in the basement in winter and outdoors in summer. Takes up little room quickly. Set up it requires a space 12 by 9 feet. Frame painted green. Best grade lumber throughout. For children 3 years old and over. Shipping weight, 90 pounds. **$14**

Bigger and Better Than Ever Before

Never before have we seen big Christmas Stockings like these, so brimful of quality toys, offered for less than $2.50 each—in fact they are far superior to those usually sold even at that price. The toys are real, not simply "fillers." They are just the joy-bringing toys about which boys and girls write to Santa Claus and just the thing, too, for the teacher who needs an assortment of individual presents for the kiddies.

Free Surprise Package With Each Stocking

Even without considering the Surprise Package, this is the best Christmas Stocking value ever offered. We won't tell you how much this toy is worth, as it is our Christmas gift to your little boy or girl; but we know this surprise package will complete your satisfaction to overflowing. To convince those parents who have never as yet become familiar with this yearly holiday offer, we are selling the stockings on approval. If you find that they do not give you more for your money, return the stockings to us and we will refund what you have paid, including transportation charges both ways.

The Boy Will Enjoy Every One of These Toys

Mother Could Not Select a Better Assortment

There are hours of fun in store for him with the A. C. Gilbert Real Erector set. The complete rubber type Printing Outfit enables him to print his own cards or toy circus programs. Windmill parts for assembling, all ready to put together with necessary nuts and bolts. An 11-inch airplane of wood that will actually fly. A Magnetic Compass to take on those long hikes to show the way. A baseball, break action popgun, and Filmoscope with films—are also fun makers for all.

There is a nickel-plated flute that may be played like a real instrument; a horse shoe magnet that will always be a novelty; a nail puzzle that amuses all; a frog snapper that "clicks" when pressed between the fingers; an imported horn, 10 inches long guaranteed to make a lot of noise. He can play grown-up with the make-believe spectacles and have his friends put their finger in the end of the finger trap and they can't get away until he loosens it. Lithographed metal globe on stand shows practically all the countries, oceans and rivers in colors, a real help for geography lessons. Whistling tickler uncurls when he blows into the wooden mouthpiece. It's loads of fun painting with the water colors, and he can surprise everyone by making pictures appear in the ten-page magic book—just brush clear water over the invisible colors, and presto, beautifully colored pictures appear. Story book printed in colors on good paper. A dandy wood top and string; a wooden noise maker; spinning flyer that rises high into the air.

He can imitate the movie comedians with the tiny imitation straw hat with elastic to go under the chin. Also a Chinese puzzle that never grows old; full size policeman's star to pin on his coat when playing copper with the other boys; box of eight imported stencils, pocket magnifying glass, with folding handle, may be carried in the pocket and used as a burning glass; toy rake, spade and miniature garden hoe; a 5½-inch brass lined telescope copied after those used by sea captains. Every toy a real, substantial plaything particularly suited to boys. And don't forget the FREE SURPRISE PACKAGE. How delightfully surprised he will be with it—for it is Ward's Christmas Gift to the boy. Shipping weight, 6 pounds.

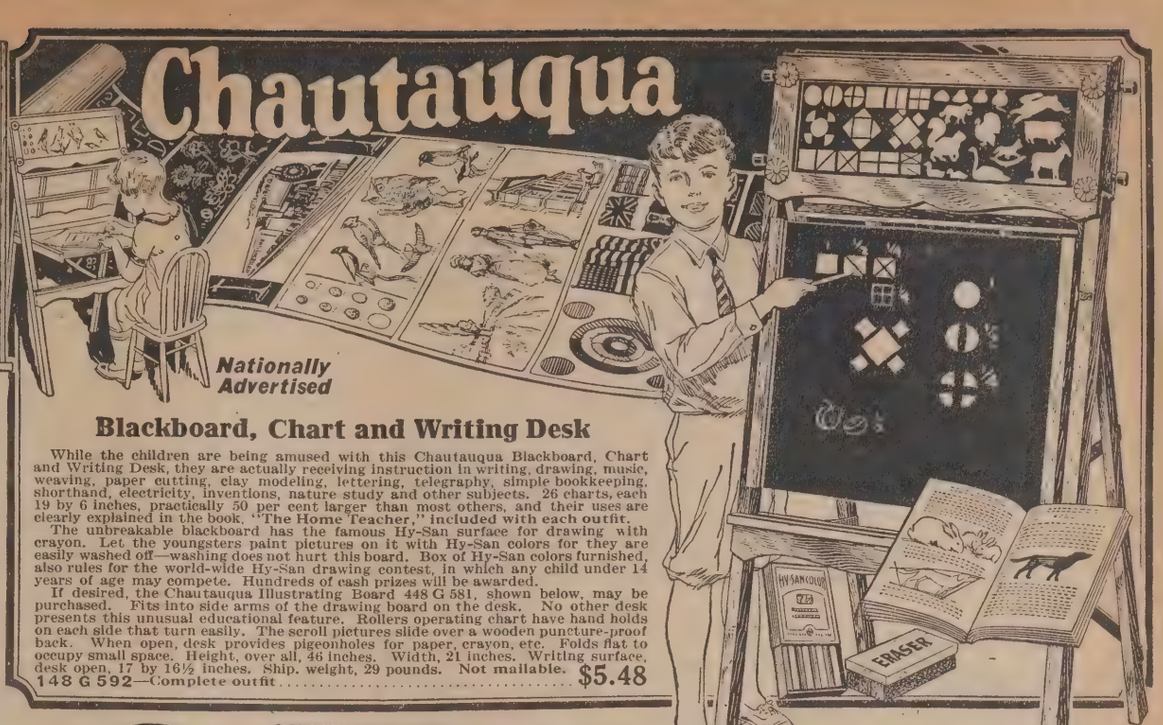
Chautauqua



Nationally Advertised

Blackboard, Chart and Writing Desk

While the children are being amused with this Chautauqua Blackboard, Chart and Writing Desk, they are actually receiving instruction in writing, drawing, music, weaving, paper cutting, clay modeling, lettering, telegraphy, simple bookkeeping, shorthand, electricity, inventions, nature study and other subjects. 26 charts, each 19 by 6 inches, practically 50 per cent larger than most others, and their uses are clearly explained in the book, "The Home Teacher," included with each outfit.

The unbreakable blackboard has the famous Hy-San surface for drawing with crayon. Let the youngsters paint pictures on it with Hy-San colors for they are easily washed off—washing does not hurt this board. Box of Hy-San colors furnished, also rules for the world-wide Hy-San drawing contest, in which any child under 14 years of age may compete. Hundreds of cash prizes will be awarded.

If desired, the Chautauqua Illustrating Board 448 G 581, shown below, may be purchased. Fits into side arms of the drawing board on the desk. No other desk presents this unusual educational feature. Rollers operating chart have hand holds on each side that turn easily. The scroll pictures slide over a wooden puncture-proof back. When open, desk provides pigeonholes for paper, crayon, etc. Folds flat to occupy small space. Height, over all, 46 inches. Width, 21 inches. Writing surface, desk open, 17 by 16½ inches. Effanbee's Beautiful Dancing Dolls

"How do you do! I am Rose Mary as slender and graceful as a real little girl—and almost as lively. I'll dance or walk if you lead me. I have sleeping eyes with long lashes, and a cunning open mouth. My sewed wig has long, silky brown curls of real human hair. Mary Sue, my sister, is just like me, except she wears her fluffy golden hair in the latest ringlet bob. This is our third year at Ward's and already we have made thousands of little girls happy. Notice our hard-to-break composition head and legs, and our full composition arms so beautifully shaped, and jointed at the shoulders. We're dressed in dainty sheer white dotted voile with lace edged ruffles of pink organdie, pink petticoat, pink hose and slippers. Genuine 21-Jewel Bunn Special
Ten Dollars A Month

You can now have America's most popular Railroad Watch on "Easy Payments." Only $10 down with your order and this famous timekeeper is sent to your home; the balance—$10 a month—soon pays for it completely. If ordered on easy payments use order blank on Page 725.

The 16-size 21-Jewel Illinois Bunn Special is recognized by railroad men the country over as the last word in fine railroad watches. A super-timekeeper in every respect, perfect in mechanical precision. Each part is constructed to give a lifetime of service.

60 Hour—9 Adjustments

This watch goes through a more rigid factory inspection than any other railroad time-keeper made. It is adjusted to 6 positions (one more than on most railroad watches) as well as to heat, cold, and isochronism—an adjustment by which it will run at the same rate whether fully or only partially wound. It has a specially designed barrel with main spring sufficiently long to run 60 hours, an added insurance in case you forget to wind your watch.

Timed and Tested in Case at the Factory

Fitted in a specially designed dust-proof 10-K gold-filled case guaranteed to wear 20 years. The movements are timed and rated in the case at the factory. These cases are extra heavy, especially built for heavy duty, with screw back and front. The bows are absolutely non-pull-out.

Exquisite Design Which Has Every Appearance of a High Priced Watch

"Marvelous!" is the exclamation of all who have examined this Watch. The value is not only in its attractive appearance, but in the quality as well. The Stratford movement is a 6-Jewel Swiss with lever escapement and should not be confused with cheaply constructed watches that ordinarily sell at this low price. It took months of careful planning to produce this exceptional bargain—the first watch of this quality ever to be offered at a price less than $10.

Popular Thin Model—Fancy Silvered Dial

The graceful thinness of this Watch is accentuated by the richly ornamented sides and plain satin finish back. Made of silverine (nickel alloy) the case is a pure white metal through and through. The silvered metal dial has a fancy ornamented center with black numbers and hands. Written guarantee and leatherette gift case accompany each watch.

INSURED AND BONDED DIAMOND QUALITY

Purity, Quality, Size and Cash Value Backed by World's Largest Surety Company • • • for the First Time in Diamond History

Only Ward's Protects Purchasers With This Strong Double Guarantee

When you buy diamonds at Ward's you actually save 20 to 40 per cent of the usual retail price. And we further increase the value of your purchase by issuing to each purchaser individually the greatest bonded guarantee in the entire history of the diamond business. This insurance of value, in the form of this Double Diamond Guarantee, is now offered for the first time by any store, and it makes your investment safe, beyond question, in the years to come.

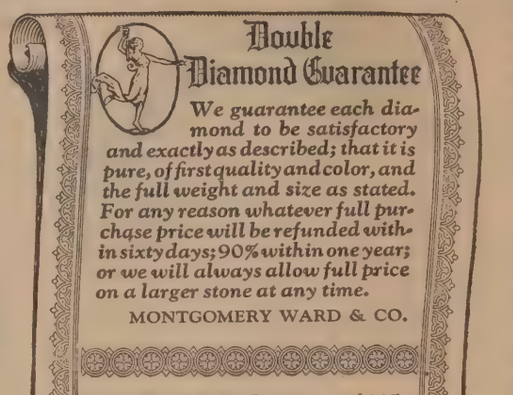
In addition to our own time-tested guarantee that has never failed in 55 years, we also have insured and bonded your purchase with the National Surety Company of New York, known everywhere as the world's largest surety company.

Read fully this bonded guarantee at the right, for now even the most inexperienced can buy with *certainty* and KNOW that their diamonds, if from Ward's, will have the highest cash surrender value in any market.

By Importing Diamonds Direct We Save You All Middle Profits

"I personally selected each of these diamonds in the largest European wholesale markets. Frequently I go to Antwerp and Amsterdam. With our experts, we literally comb these markets, buying only the first quality stones direct from the cutters. Our immense spot cash offers bring special discounts. Then by importing direct and selling direct, we eliminate all usual in-between profits, of which there are a great many in the diamond business. Thus you have these lowest-in-America prices on insured first qualities."

THOS. F. CONNELL,
Manager of Ward's Diamond Department



Double Diamond Guarantee

We guarantee each diamond to be satisfactory and exactly as described; that it is pure, of first quality and color, and the full weight and size as stated. For any reason whatever full purchase price will be refunded within sixty days; 90% within one year; or we will always allow full price on a larger stone at any time.

MONTGOMERY WARD & CO.

National Surety Company of 115 Broadway, New York City, New York, hereby guarantees that Montgomery Ward & Company will, in all respects, comply with the terms of the foregoing guarantee.

The Corrinne

Few rings are more exquisite than the Corrinne which is an outstanding example of artistic craftsmanship. It is one of the very latest designs of fancy prong style settings. Exceptionally fine large diamond and two perfectly cut smaller diamonds are set in 18 Karat solid white gold—a mounting that in itself is a thing of beauty. Enlarged illustration above at the left shows the detail of design, indicating the fine engraving and hand piercing. The prongs hold the diamond securely and makes it appear larger than it actually is.

Direct from Amsterdam, the diamond mart of the world, comes the beautiful gem in this skillfully designed ring. The mounting of solid 18 Karat white gold so closely resembles platinum that only an expert can tell the difference. Lovely scroll and floral pattern makes an exquisite setting for the diamond. Relative sizes are shown in the three rings pictured above. Two fancy shaped synthetic stones, one on each side in your choice of deep blue sapphire, emerald or ruby. Be sure to mention which of these stones is wanted with your diamond.

Synthetic Rubies and Sapphires sold by Montgomery Ward & Co., although they are artificially made, have the same chemical content as the genuine mined stone, are just as hard and will retain their color and luster indefinitely. Our white synthetic sapphires bear closest resemblance to diamonds. Mountings are of the same high quality as those used for our genuine diamonds.
Women's ring sizes, 5 to 10; men's ring sizes, 7 to 13.

How to Find Correct Ring Size

If you have a ring, preferably a band ring, or can borrow one that fits your finger, place it over the circles until you find one the exact size of ring inside. The number in the circle denotes your finger size. If ring falls between two sizes, order the larger size. If you have no ring to measure, wrap a string or narrow strip of paper snugly around largest part of finger. Cut it off so the ends just meet. Place on the gauge at the right so one end just covers the black line at point "A"; the figure at the other end is your finger size. If end of strip falls between two numbers, order the larger size. You may also order Ward's rings from any ring size card or gauge.

Rivaling Natural Pearls

The Very Finest of Reproductions Created by the Makers of the **Famous Richelieu Pearls**

In the better grades of near Pearls such as we show on this page, there has been a marked advance in the science of reproduction. Indestructibles, of course—but their real superiority over mediocre quality is in their color and blended iridescence. Our finer grades so closely rival natural pearls that only experts can tell them apart. We fully guarantee them against breaking, cracking, peeling or discoloring.

You Can Depend on the Quality

The Emblem Buttons and Pins shown in this group are all solid gold; the fastenings, such as screw parts, backs, pins, joints and catches are gold filled. This does not in any way affect the wearing quality of the emblem itself, which is solid gold. Most of these emblems are enameled in colors, and all of the pins are fitted with safety clasps. A neat gift case is included with each button or pin.

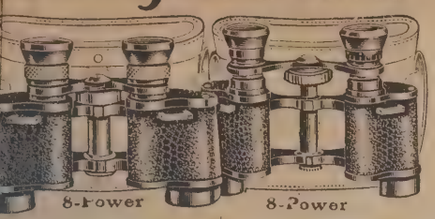
Powerful Field Glasses—Wide Vision Prism Binoculars



8-Power 8-Power

A pair of these Field Glasses will add to the pleasure of your sight seeing trips and vacations. Glasses described as 5-power, magnify 5 times and will make objects 5 miles away appear as if they were only one mile away. Binoculars give a larger field of vision. The diagram at the right shows the difference between a prism binocular and a regular field glass the object being viewed from the same distance. The inner circle shows the relative field of view of the regular field glass in comparison with prism binoculars, the next larger circle, the average prism binocular, and the outer circle the Zeiss binocular.

STERLING SILVER—"The Gift Supreme"

Today, as for generations past, sterling on silver is the mark of excellence. A table set with this precious ware will be correct for any occasion, and will honor even the most distinguished guest. To bear the mark of sterling, 925 out of every 1000 units must be pure silver—that is the Government's requirement. It must be solid through and through. Start a chest of sterling with a few selections and fill it piece by piece; you'll be surprised how fast your set will grow. And considering the years of pleasurable service—your collection will be a genuine economy. The patterns are standard, of good weight and can be matched at any time. Engraving is 3¢ per letter extra for Script as shown on Georgian Maid and 5¢ per letter for Old English as shown on Brandon pattern. State Initial and Style Wanted.

Save $4 to $5 On This Genuine Oneida Community Par Plate

It's good to look at and it's good to use! Oneida Community Par-Plate guaranteed for 20 years of satisfying service—and for only $7.98! How are we able to make such an amazingly low price on this quality, you ask? Oneida Community has discontinued the national distribution of this pattern, and by contracting for a large remaining quantity it is possible for us to quote this special reduction. Remember, this low price does not sacrifice quality or workmanship.

Twenty-Nine Pieces in This Set

This set contains 29 pieces—three more than the regulation number—six dinner knives, six flat handle dinner forks with the popular spoon shaped handles, 12 teaspoons, three tablespoons for serving, one butter knife and one sugar shell. The "Primrose," named after the flower, is appealing in its simplicity of design. French gray finished handles and polished bowls. What a practical gift of everyday silver for a bride! We will engrave all pieces except knives (which are too hard for satisfactory engraving), for 3¢ extra per letter for Script style and 5¢ per letter for Old English. State initial wanted. Shipping weight, 4 pounds.

546 G 2443—Complete set as described above $7.98
546 G 2441—Complete set of 29 pieces, including 6 solid handle knives, 6 flat handle forks, 6 teaspoons, 6 dessert spoons which may be used for soup, 3 tablespoons for serving, one butter knife and one sugar spoon $8.75

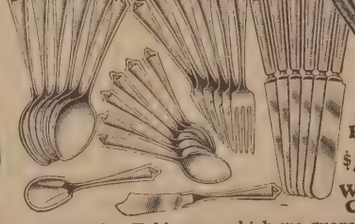
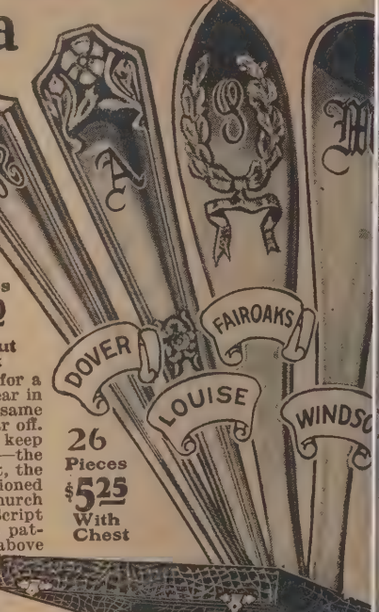
Lifetime Panama Table Service



26 Pieces $4.50 Without Chest



26 Pieces $5.25 With Chest

Inexpensive Tableware which we guarantee for a lifetime of service with hard use, every day, year in and year out. The silver white metal is the same all the way through, there is no plating to wear off. Takes a polish like real silver and is easy to keep clean. Comes in four attractive patterns—the Windsor, Louise and Dover of standard weight, the Fairoaks, exceptionally heavy. The last mentioned is also very serviceable for school, lodge or church use. Engraving is 3¢ extra per letter for Script style as shown above on Dover and Fairoaks patterns, or 5¢ per letter for Old English as shown above on Louise and Windsor patterns.

Salad Forks Any Pattern

6 for $3.48

This Silverware is a happy combination of unquestioned quality and low price. Made by two of the oldest and best silverplate manufacturers in America—it carries a 25-year Guarantee—more than a generation of service. You have a choice of four beautiful patterns, three of them created by S. L. & Geo. H. Rogers and the fourth by Wm. Rogers. The Roxbury and Kingston are finished in a soft platinum gray; the Lexington has a high luster; the Essex has a soft satin finish with highly polished bowls. Conscientious workmanship is apparent in each piece. Sturdily made and plated with pure silver on a base of nickel silver. In addition every piece is reinforced with an extra plating on points most subject to wear. We will gladly replace any piece that does not wear satisfactorily. Engraving is 3¢ extra per letter for Script style as shown on the Lexington and Kingston patterns, and 5¢ per letter for Old English as shown on the Roxbury and Essex patterns. Each piece can be engraved except solid handle knives which are too hard to engrave satisfactorily. State initial and style of initial wanted.

ROGERS SECTIONAL PLATE Guaranteed 40 Years

Guaranteed for 40 years, but so heavily plated with pure silver that it will more than likely last five to ten years longer. This is the same grade of silverware that is sometimes guaranteed by others for 45 years. Offered to you in four designs, each one distinctive and in excellent taste. The Webster and the Aladdin patterns are made by S. L. & Geo. H. Rogers, and the Ashland and Chalfonte by Wm. Rogers, both nationally known manufacturers. All pieces have an extra layer of solid silver at points most subject to wear, in addition to the regular heavy plating that covers the entire article. Engraving is 3¢ per letter extra for Script as shown on Aladdin and Webster, and 5¢ per letter for Old English as shown on Ashland and Chalfonte. Solid handle knives are too hard to engrave satisfactorily. State initial and style initial wanted.

INTRODUCING the "Gold Bond"
The New Stonite Fountain Pen

Non-Breakable

Shipping Weight, All Pens, 4 Ounces Each

The Best in All Fountain Pen Construction

Ward's keeps apace with the progress of latest developments! That is why we now introduce this finer and better Fountain Pen, "The Gold Bond." New and improved methods of construction, better and more enduring materials, the result of latest ideas in scientific research have been combined to produce this remarkable writing instrument.

A tougher and more enduring material called "Stonite" is used in making Gold Bond Fountain Pens. Stonite is practically Non-breakable, withstanding the most severe abuse to which a fountain pen can be put. It is beautiful in texture yet light in weight and pleasant to handle. Gold Bond Pens are not to be confused with ordinary pens—for only the very best compare with Gold Bond quality—those costing two and three times as much. Handsomely designed, sturdy in construction and perfectly balanced, they will last you a lifetime.

Written Lifetime Guarantee

Your full and complete satisfaction is Ward's aim. Our special written certificate Guarantees you a lifetime of writing service from the extra heavy solid gold pen point in all Gold Bond Pens!

Features Found Only in the Best Fountain Pens

Iridium, the hardest known metal, forms the writing edge and is tipped on extra heavy solid 14-Karat gold pen points. Trouble-proof self-filling device draws the maximum amount of ink into a perfectly leak-proof barrel. Pen writes instantly as soon as it touches the paper. These are Gold Bond features you'll appreciate for life.

A Personal Message to Book Lovers

Duke Hill, Manager
Book and Stationery Department

The great men and women of the world are those who have been on friendly terms with Books. Every one of you, too, who reads this—whether man, woman or child—will lead a happier, fuller life when at least a part of your time is devoted to reading or study.

It has been a great pleasure to select and offer you some of the world's best books. They are by authors of the past and today, on Fiction, Adventure, Religion, the fields of Poetry, Business, Travel and Engineering—all of which add to the invaluable store of knowledge that leads to contentment, happiness and freedom.

You will find here hundreds to select from—many of the newest ones are not yet off the press as I am writing this—and all of the books listed here, because of our great purchases, are priced to you much below the usual retail price.

Your choice of books is among them. Let Ward's help you increase your library at small cost.

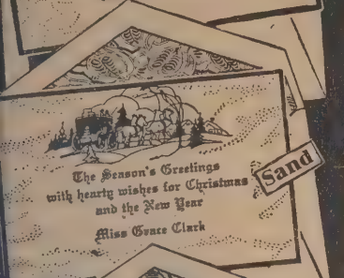
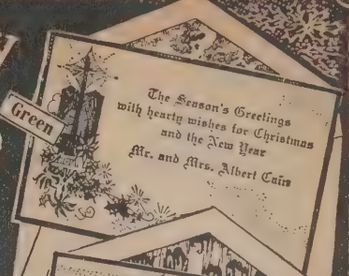
Greeting Cards of Individuality

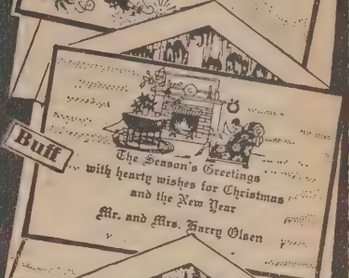
Your Name in Plain or Raised Letters on Each Card



Raised Letter Printing
The New Popular Method of Printing Personal Greeting Cards

This new method raised letter printing, known as Process Embossing, gives the much desired engraved effect but costs very much less. It has become quite popular in the last year and is being used extensively on social and business cards and stationery. On these cards your name will be in a raised dull finish, in shaded old English lettering, to match the genuine engraved sentiment on the card. The plain printing also comes in shaded Old English to match sentiment.





Every card is distinctive and individual, in this fine selection, and has been newly designed by gifted artists for 1927. Your own name in plain or raised shaded Old English lettering, to match the sentiment, gives to them that personal touch. High-grade novelty and vellum finish cards in white and tinted stock with harmonizing borders. Envelopes to match, with unusually attractive art tissue linings. The genuine, steel die-stamped designs are in beautiful colors and gold in keeping with the holiday season. The sentiments breathe the very spirit of Yuletide. Cards most fitting to carry your message of good cheer to friends and relatives. You would pay at least 15¢ apiece for them without the printing, wherever cards are sold. Each one is 4 by 6¼ inches. Print name wanted plainly (do not write). Allow four days for printing. No orders filled after December 18th. We do not print less than 20 of one style or name. Shipping weight, 20 cards, 15 ounces.

Forlorn River
Ready October 1st

By Zane Grey

This is a new story of the old West with the intensity and dash which the author alone can bring fully to life in print. The lawless days of cattle stealing—the thrilling pursuit of wild horses on the great western plains—an outlaw Nevada, whose name brought terror to hearts of the gunmen and a beautiful girl who's love he sought to win. This intensely interesting story ran in serial form in the American Magazine under the title "Nevada."

They Also Serve

By Peter B. Kyne

A star performer in this story, a horse, is called the "Professor." He ate a hatful of oats or a liberal helping grass au natural for breakfast; and was the wisest, bravest, hard-boiled "red-leg" horse with the field-artillery in France. You will enjoy immensely reading this yarn of his master and a girl, of love and wild adventure and cozy billets, of the queer kinks of human nature as seen by a horse—a yarn told by the "Professor" himself.

God and the Groceryman

By Harold Bell Wright

This author brings to a close in this story his serial of novels begun with the "Shepherd of the Hills" and carried forward in "The Calling of Dan Matthews." It illustrates how happiness, the great prize of life, is won only by living your own high standards; by having a true love for your fellowmen; and by the acceptance of the Fatherhood of God. Such questions are stirring the lives of men and women today.

Tomorrow Morning

By Anne Parrish

In this novel the author has done, with infinite tenderness and truth, the story of a family such as we all know from personal experience, a happy, hopeful family, in spite of its disasters; always expecting to begin life afresh, to realize all the old dreams "tomorrow morning." There is laughter and happiness here and all the thousand and one absurd things—funny relatives, solemn and amusing friends, social comedies. The story of a mother's love for her son.

57 G 592.....**$1.75**

The Deadfall

By Edison Marshall

A novel of the weird lonely places of Alaska. The story of a love for the little people of the wild, pitted against man's bloodlust and merciless greed. Of a trap that catches the trapper and an enmity that turns to love. Of the vengeance that is a boomerang. You will learn the lore and the lure of the wilderness and of the elemental conflict between men. You will feel the heartbeat of romance.

William Danella, Librarian in the Agricultural and Mechanical College of Texas, writes: "It is the only one that is not out-of-date at the time of publication."

J. G. Schurman, writes from the office of the President of Cornell University—"Three features of the work, increasingly impress me. First, the immense range of topics which it treats; secondly, the accuracy and thoroughness of the articles; and thirdly, the fact that everything is up-to-date. This latter feature is of utmost importance, as the ordinary encyclopedia so speedily becomes obsolete."

W. W. Hepburn, Librarian of Purdue University, says: "It is one of the leading encyclopedias of the present day, and has features not possessed by any others. New material is constantly being imprinted into the work, by means of the supplementary pages issued every six months, and in these times of rapid changes, this is an important point."

E. H. Canfield, Ex. State Senator of Minnesota, writes: "I own two other encyclopedias, but I would not exchange Nelson's for any other work that I know of. The loose-leaf system keeps the work New and Up-to-Date all the time."

C. G. McCollom, prominent attorney of Detroit, Michigan—"It is so complete and up-to-date that it leaves nothing to be desired."

Mrs. I. C. Capps, Librarian of Carnegie Library at Hastings, Nebraska, notes: "We find it thorough and complete—the only encyclopedia which is up-to-date and can be constantly kept up-to-date."

Things are happening fast today—the whole face of the world is changing—geography is different, science is on the threshold of more important discoveries than at any other decade in the world's history. New light is being thrown upon Agriculture, Manufacturing, Medicine, Education, Religion, Business and Government—every person in the United States is vitally affected by these changes. Knowledge of the World's Advance Is Necessary! The greatest rewards in every field of endeavor are bestowed upon men and women who KNOW, or who can go to reference works and find out!

Why Nelson's Is the Best Encyclopedia. The ordinary fast-bound encyclopedia, published ten years—five years—or even a year ago, is out-of-date today! The facts of yesterday may be falsehoods today—out-of-date information may be misleading—worse than useless! How different it is with Nelson's!—the Perpetual, Always up-to-date Loose-Leaf Encyclopedia which will give the latest authentic information today, next year, or a generation from now! Nelson's is printed on separate pages that are inserted in special loose-leaf binders. New pages are constantly being written and printed to replace obsolete pages, or to cover new subjects. Over 500 new pages, including more than 2,000 changes per year are sent to each purchaser. Every six months, all of the 12 big volumes and companion index volume, are brought up to date. Fresh information, accurate and authoritative is always ready for reference.

The Most Complete and Up-To-Date. In its twelve volumes, and index volume (size 7½ x 10¼ inches) the Nelson treats upwards of 1,000,000 topics; has 500 maps and 7,000 illustrations, many of them in colors. We offer the set complete for $75—every page exactly the same as in the regular edition, sold everywhere for $148. The same type, the same complete data, printed on the same high quality paper—the same press run. Part of our big saving is in the binding. We offer these sets in Lifetime, Iron-Cloth Buckram Binding, and do not ask you to pay the excessive cost of the original morocco leather bindings.

Educational Reading—Free Research Bureau. In addition to the encyclopedia, each purchaser receives Free, a Readers' Guide, including 33 courses of systematic reading, equal to a post-graduate college course. Also, every purchaser is entitled to consult Nelson's Research Bureau as often as he wishes—and a complete analysis of any subject upon which he desires information will be sent absolutely FREE.
